

HABITAT COMMITTEE REPORT ON
MEMBERSHIP APPOINTMENTS AND COUNCIL OPERATING PROCEDURES

Following from the September meeting, the Habitat Committee (HC) recommends the Council direct the HC and Ecosystem Workgroup to improve coordination due to the overlap in their focus areas. This will ensure that the two committees' work is complementary. One way to do this would be to use liaisons to attend the other group's meetings. The HC also recommends the Council fill the long-standing vacant North Tribal seat, which, in the past, has provided valuable expertise and input for northwest habitat issues.
