

NATIONAL MARINE FISHERIES SERVICE REPORT ON THE
WEST COAST REGION WEB TRANSITION

The National Marine Fisheries Service (NMFS) is combining all regional and center websites into one national website. The NMFS West Coast Region (WCR) is transitioning our WCR website (www.westcoast.fisheries.noaa.gov) to the new national website (www.fisheries.noaa.gov) by this summer. Our goal is to transition the majority of our WCR web content by June 30, 2019.

To provide an advance look at the new site and where relevant content will be located, we will offer Council advisory bodies a briefing at the April and June Council Meetings, if interested, to provide them with a short introduction to the site and where to find relevant information. NMFS can also provide a brief overview of the web transition to the Council at the June Council meeting. During the overview, we will provide a brief orientation to the new site, answer questions, and seek feedback from the Council.

If questions, please contact Ruth Howell, WCR Communications and External Affairs Branch Chief, at Ruth.Howell@noaa.gov, or 503.736.4720.
