INTRODUCTION

This document contains or identifies the various elements, documents, and sources comprising the complete and official record of Council meeting discussions and actions. In addition to the Meeting Summary, which follows this introductory section (see #7 below), it includes information or references that serve as the functional detailed minutes for this Council meeting as required by §302(i)(2)(E) of the Magnuson-Stevens Act. The full record is maintained at the Council office, is available on the Council website (<http://www.pcouncil.org/>) or upon request from the Council office, and consists of the following:

1. **Meeting Notice and Proposed Agenda** – These documents are available on the Council Website prior to and following each meeting at <https://www.pcouncil.org/>.
2. **Attendance Records** – These documents are available for the Council meeting and each advisory body meeting by request from the Council office.
3. **All Documents, Reports, and Presentations for Council Consideration** – These items include (1) all documents produced or received for the meeting briefing book, validated by a label assigned by the Council Secretariat and distributed to Council Members; (2) written public comments received at the Council meeting in accordance with agenda labeling requirements; and (3) electronic material or handout materials used in presentations to Council Members during the open session. They are available from links in the Meeting Summary of this document or at <https://www.pcouncil.org/march-2019-briefing-book/>.
4. **Council Decisions Summary Document** – This document is distributed shortly after each Council meeting. It provides very brief descriptions of most key Council decisions and is available at <https://www.pcouncil.org/documents/2019/03/march-2019-decision-document.pdf/> and also provided by agenda item in the Meeting Summary of this document.
5. **Draft or Final Decision Documents Finalized after the Council Meeting** – Documents such as Environmental Impact Statements or Environmental Assessments are available on the Council website as they are completed.
6. **Gavel-to-Gavel Audio Recordings and Summary Transcripts** – These recordings contain the testimony, presentations, discussions, and actions occurring at the meeting and are labeled by date and time (e.g., 04-11-15am1) and have been annotated as to the time on the recording for the start of each agenda line item to help facilitate review. For additional reference, verbatim transcripts of Council Actions are available on the Council website. The [recordings](#) and [transcripts](#) may be accessed from the links contained within the Meeting Summary of this document..
7. **Meeting Summary** (immediately follows this section) – The Meeting Summary lists, in agenda item order, the briefing book documents, reports, presentations, and Council motions and actions, including a brief summary from the Council Decisions Summary Document for each agenda item. It constitutes the meeting record formally approved by the Council. The agenda heading for each agenda item, and most listed documents, serve as internet links to the actual briefing book documents. Internet links in brackets (e.g.,[[mp3: 11-11-14pm1 @01:21:15](#)]) refer to the audio recording and elapsed time on the recording at which the agenda item was initiated. Links to the [audio recordings](#) are annotated by agenda item.
8. **Voting Log** – The voting log lists, in Agenda order, the summarized Council motions and actions for each agenda item that took place during the meeting.

MEETING SUMMARY

Motion 20: Council appoint Mr. Jon Pink to the current Washington Coastal Tribal Fisheries vacancy on the Salmon Advisory Subpanel.
Joe Oatman/Kyle Adicks (Motion 20 carried unanimously)

Staff Summary: The Council reviewed and approved the following appointments:

- Mr. Greg Krutzikowsky was appointed to the Oregon Department of Fish and Wildlife (ODFW) seat on the Coastal Pelagic Species Management Team formerly held by Ms. Cyreis Schmitt.
- Mr. Patrick Mirick was appointed to the ODFW seat on the Groundfish Endangered Species Workgroup formerly held by Dr. Caren Braby.
- Ms. Caroline McKnight was appointed to the California Department of Fish Wildlife (CDFW) vacancy on the Groundfish Management Team.
- Mr. Travis Buck was appointed to the CDFW seat on the Ad Hoc Ecosystem Workgroup formerly held by Ms. Deb Wilson-Vandenberg.
- Ms. Melinda Rowse was appointed to the NMFS Northwest Fisheries Science Center seat on the Salmon Technical Team formerly held by Dr. Robert Kope.
- Mr. Jon Pink was appointed to the Washington Coastal Tribal Fisheries vacancy on the Salmon Advisory Subpanel.

The Council also welcomed Sergeant Kit Rosenberger as an alternate for Captain Dan Chadwick as a Washington Department of Fish and Wildlife Enforcement Consultant.

The Council reviewed revisions to the Council Operating Procedures regarding rules of conduct, staffing expectations, and the Council's new electronic public comment policies. The Council directed staff to provide a summary of [March Advisory Body statements](#) and to continue to solicit input on the revisions at the [April 2019 Council meeting](#). The Council is tentatively scheduled to approve final revisions at the June 2019 Council meeting.

- Desired Outcome of Scenario Planning process:
 - Scenario Planning Process will define tools products and processes necessary to react to potential future states.
- The Council Chair will appoint a Core Team as soon as possible. This Core team will perform specific tasks listed below and provide oversight for the duration of the Scenario Planning process. The Core Team will include:
 - EWG (2-3 members)
 - EAS (2-3 members)
 - CSI team (3)
 - Council staff (1)
 - IEA/FSC member (1)
- The Council will task the Core Team to meet and collaboratively perform the following tasks:
 - Work with Council staff and outside funders to secure funding for process
 - Select Scenario Planning facilitation and advisory support to assist with the process
 - Refine the Scenario Planning topic, identify data/information, additional expertise needed
 - Develop Scenario Planning process which may include workshops/meetings, reports, Council touchpoints, facilitation, community outreach/engagement, etc.
 - Identify Scenario Planning process participants
 - Define timeline to complete Scenario Planning by March 2020
 - Refine Desired Outcome of the Scenario Planning process
- The Core Team will provide an update on the Scenario Planning tasks at the September 2019 meeting, and ask for final decision from Council on details of the Scenario Planning process.

Phil Anderson/Bob Dooley (Amendment carried unanimously)
(Motion 2 as amended carried unanimously)

Staff Summary: The Council adopted *shifting stock availability (including shifting distribution) across species, FMPs, and communities across the west coast* as the topic for a climate change scenario planning exercise.

The Council wants this scenario planning process to result in the definition of tools, products, and processes necessary to react to potential future ecosystem states resulting from climate variability and climate change.

The Council is forming a Core Team to: identify funding, facilitation, and advisory support for the scenario planning exercise; refine the topic described above; specify a detailed timeline for the scenario planning process; and identify participants in the scenario planning exercise. The Council set an objective of completing the scenario planning exercise by March 2020.

The Core Team will be composed of members of the Ad Hoc Ecosystem Workgroup (EWG), Ecosystem Advisory Subpanel, Ad Hoc Climate Scenario Investigation Team, Council staff, and National Marine Fisheries Service Fishery Science Center personnel. The Core Team will provide an update on these tasks at the September 2019 meeting, at which time the Council will specify further details of the scenario planning process.

Michele Culver/Phil Anderson (Amendment carried unanimously)
(Motion 3 as amended, carried unanimously)

Staff Summary: The Council directed the EWG to submit, for the September 2019 advanced briefing book, alternative descriptions of the FEP Vision (including purpose, goals, and objectives), taking into account public and advisory body comments. These alternatives should include ecosystem-level, outcome-oriented goals and objectives, and address the effects of climate change. At its September meeting, the Council is scheduled to adopt a revised FEP Vision.

Considering the revised FEP Vision purpose, goals, and objectives, along with progress on the Climate and Communities Initiative, in March 2020 the EWG will present detailed alternative proposals for revising the rest of the FEP. At that time the Council would provide guidance on any comprehensive revision of the FEP.

- G.2.a, Project Team Report 1, with the modifications to section 7.4 in G.2.a, Supplemental GMT Report 1
- G.2.a, Supplemental ODFW Report 1, except:
 - In #1, replace the proposed addition “certain types of fishing” with “certain fishing gear or methods”
 - In #3 do not include the underlined phrase “with bottom contact gear”
 - Do not use #4
- G.2.a, Supplemental REVISED HC Report 1 including the attachment, except:
 - In the list of habitat objectives on page 3, replace “all managed species and life stages” with “all groundfish FMP species and life stages”
 - Noting that in the same list, the fifth bullet should be split to begin a sixth bullet with “Conduct scientific research...”
- Remove references to COP 22 in the FMP, as described in G.2.a, Supplemental GAP Report 1

In addition, approve the FMP appendices, and allow Council staff, with the support of the Project Team, to further update the FMP and appendices consistent with EFH regulations and Council recommendations. Additional public input regarding corrections to the appendices should be directed to Council staff no later than Monday, March 25, 2019. The FMP and appendices would then be submitted for Secretarial review without further review by the Council.

Maggie Sommers/Brad Pettinger (Motion 9 carried unanimously)

Motion 10 [[mp3: 3-9-19pm1 0:12:41](#)]: Council:

1. Approve COP-22 with revisions proposed below for further review.
DRAFT COUNCIL OPERATING PROCEDURE 22: PROCESS FOR ESSENTIAL
FISH HABITAT REVIEW AND MODIFICATION

PURPOSE

To guide the Council’s review and modification of essential fish habitat (EFH) provisions in FMPs, including identification and description of EFH, fishing and non-fishing impacts, recommended conservation measures, habitat areas of particular concern, and other provisions of EFH.

OBJECTIVES

1. To ensure that the EFH provisions in the Council’s FMPs are consistent with the best

scientific information available.

2. To ensure a transparent **and efficient science-based** process for review of new information, and consideration of any potential changes to EFH provisions.

EFH PERIODIC REVIEW PROCESS

No more than five years after completing a review and any modifications of an FMP's EFH provisions, the Council **should initiate a new review. The Council may conduct a review of some EFH elements, such as HAPC, in the interim period; however, changes to HAPC or other EFH elements in between full EFH reviews will only be contemplated in unusual cases in which notable harm might result by inaction. The review should include the** evaluation of published and unpublished scientific literature and reports, information from interested parties, and previously unavailable or inaccessible data. The Council will identify the appropriate Council and/or National Marine Fisheries Service staff lead(s) to coordinate the review, working with subject area experts, Council Advisory Bodies, and others to complete a review consistent with Federal regulatory guidance at 50 CFR 600, Subpart J.

In determining the scope and schedule of the review, the Council should consider recommendations from prior reviews, clearly identify the purpose and **measurable** objectives for the review **and habitat conservation objectives for any amendments to EFH**, and solicit input from its Advisory Bodies **and the public**.

As appropriate, the review may be scoped in two phases. In the first phase the project lead(s) and subject matter experts **(i.e., federal/state agencies, tribes, academia)** will conduct a thorough review of the best available scientific information on the EFH provisions contained in a particular FMP. Based on this review, **and considering input from its advisory bodies and the public**, the Council may embark on a second phase in which changes to EFH provisions **for that FMP**, as well as commensurate minimization measures, are considered for Council adoption.

Prior to initiating a review, the Council should adopt a **process and** schedule for both the review phase, and if necessary, the second phase in which changes to EFH provisions are considered. **The process and schedule will contain details such as key participants and steps relevant to the subject FMP.**

2. Initiate an "Amendment 28 post-mortem" by requesting the EFH Project Team to consider how to conduct a survey of all interested individuals to gather the lessons learned and recommendations for EFH review procedures. The PT should report back to the Council with plans for such a survey in June.
3. Develop groundfish EFH review guidelines after receiving the post-mortem survey feedback and prior to initiating the next full EFH review.

Maggie Sommers/Michele Culver

Amendment 1 [[mp3: 3-9-19pm1 0:33:22](#)]: In the second bullet strike out "in June"

(Motion 10 as amended carried unanimously)

Motion 11 [[mp3: 3-9-19pm1 0:36:43](#)]: Council amend a prior motion regarding Agenda Item F.3 from April 2018. Add a second bullet under Subject Area 1, Alternative 1.a - Collaborative, that reads as follows:

- With Arago Reef expanded slightly from Alternative 1.a such that it closes all of the EEZ between the northern, western and southern boundaries, as shown in Agenda Item G.2.a, NMFS Report 1, March 2019.

Maggie Sommers/Michele Culver (Motion 11 carried unanimously)

Staff Summary: The Council approved Groundfish Fishery Management Plan (FMP) Amendment 28 [materials](#) for transmittal to NMFS and subsequent Secretarial approval. The Council took the following actions:

- Approved FMP text changes and gave direction to Council staff to incorporate specific edits as described in Council motions for transmittal for Secretarial review.
- Approved draft FMP appendices and asked Council and NMFS staff to finalize the appendices for transmittal for Secretarial review.
- Approved for public review, a new [Council Operating Procedure 22](#) (describing EFH reviews for all FMPs) scheduled for final approval at its September 2019 meeting, after all Council Advisory Bodies have an opportunity to provide comment.
- Directed the Project Team to develop a plan to survey interested individuals to gather the lessons learned and recommendations for future Groundfish EFH review procedures.
- Amended a previous motion (from April 2018) to align the [Arago Reef](#) eastern boundary with the state waters boundary.

Motion 12 [[mp3: 3-9-19pm2 0:34:37](#)]: Council adopt the new sigma values for groundfish and coastal pelagic species stocks as recommended by the SSC in Agenda Item G.3.a, Supplemental SSC Report 1. This includes the updated baseline sigma values and the recommended increase in sigma due to stock assessment age.

Additionally, request that the Northwest and Southwest Fisheries Science Centers' groundfish stock assessors work with others, as appropriate, to further explore and develop methods for improved sigma baseline and age increase values that may be stock-specific, stock category-specific, or related to groups of stocks with similar life history parameters. The intent would be to explore and develop these refined methods for SSC and Council consideration, preferably prior to the selection of priority groundfish stocks for the 2023-2024 assessment cycle.

Michele Culver/Rich Lincoln (Motion 12 carried, Mr. Zimm voted no).

Staff Summary: The Council adopted new sigma values for groundfish and coastal pelagic species stocks as recommended by the [SSC](#). This included the updated baseline sigma values and the recommended increase in sigma due to stock assessment age.

Sigma, coupled with the overfishing probability (P^*), is used to determine ABC buffers for these species. The sigma value is intended to address the scientific uncertainty in estimating the OFL and varies by the uncertainty associated with the stock category and the age of the stock assessment.

The Council also requested that the Northwest and Southwest Fisheries Science Centers' research improved sigma estimates that may be stock-specific or related to appropriate stock groups, prior to the 2023-2024 assessment cycle.

Marci Yaremko/Bob Dooley (Motion 14 carried unanimously)

Staff Summary: The Council reviewed the status of groundfish fisheries to date and recommended the following inseason adjustments to commercial and recreational fisheries.

For commercial fisheries, the Council recommended changes to the following commercial nearshore rockfish fishery trip limits in the State of California:

1. For Limited Entry and Open Access Fixed Gear: 42° 00" N. Lat. to 40° 10' N. Lat., increase the minor nearshore rockfish (other than black rockfish) sub-limit to 1,500 lbs per two months as soon as possible.

2. For Limited Entry and Open Access Fixed Gear: 40° 10' N. Lat. to the Mexico Border, increase the deeper nearshore rockfish trip-limit to 1,200 lbs per two months beginning with trip Period 3 (May-June). Period two (March-April) will remain closed.

For recreational fisheries, the Council recommended the following rockfish bag limit changes in the State of California:

1. Increase the California canary rockfish (*Sebastes pinniger*) sub-bag limit from two (2) to three (3) fish within the overall 10-fish bag limit as soon as possible.
2. Increase the California black rockfish (*Sebastes melanops*) sub-bag limit from three (3) to four (4) fish within the overall 10-fish bag limit as soon as possible.

The Council also requested an update to lingcod catch projections based on the complete set of 2018 data to be presented at the April meeting during the Inseason Action agenda item.

Staff Summary: The 2019 Pacific whiting assessment indicated the stock is healthy at 64.1 percent of its unfished spawning biomass, which was slightly lower than estimated last year. The stock has remained at a relatively high abundance since 2013 due to the strength of large 2010 and 2014 cohorts. The 2019 coastwide total allowable catch (TAC) of 597,500 mt is the same as in 2017 and 2018, resulting in an allocation of 441,433 mt for U.S. fisheries.

Michele Culver/Rich Lincoln (Motion 16 carried unanimously)

Staff Summary: The Council adopted three options for incidental halibut retention in the 2019 Salmon troll fishery. Each option included a landing and possession limit on one halibut for every two Chinook, plus one additional halibut in excess of the possession/landing ratio. The possession/landing limit per trip ranged from 15 to 35 halibut among the three options.

Final Recommendations for Fixed Gear Sablefish Fisheries: The Council recommended the 2019 incidental halibut catch restrictions in the fixed gear fishery north of Point Chehalis from April 1 through October 31, be set at 200 pounds of dressed weight halibut for every 1,000 pounds dressed weight of sablefish, plus 2 additional halibut in excess of the ratio.

Motion: None

Staff Summary: The Council directed the HMSMT to continue work on its proposed method for reporting annual performance metrics and for evaluating multi-year trends in fishery performance using a bycatch rate approach. The Council also asked the HMSMT to consider how performance metrics can incentivize bycatch reduction by fishery participants. The HMSMT is slated to provide annual estimates against performance metrics at the June Council meeting and detail the methodology for a multi-annual bycatch rate approach along with results from the proposed method.

VOTING LOG

Motion 1: Adopt [Agenda Item A.4, March 5-12, 2019](#) Council Meeting Agenda but cancelling Agenda Item K.1: Comments on Court Ordered Rulemaking on Harvest Specifications for the Central Subpopulation of Northern Anchovy.

Herb Pollard/Pete Hassemer (Motion 1 carried unanimously)

Motion 2: Council adopt the Scenario Planning topic of shifting stock availability (including shifting distribution) across species, FMPs, and communities across the west coast. This topic will be further refined by the Scenario Planning Core Team described below.

- Desired Outcome of Scenario Planning process:
 - Scenario Planning Process will define tools products and processes necessary to react to potential future states.
- The Council Chair will appoint a Core Team as soon as possible. This Core Team will perform specific tasks listed below and provide oversight for the duration of the Scenario Planning process. The Core Team will include:
 - EWG (2-3 members)
 - EAS (2-3 members)
 - CSI team (3)
 - Council staff (1)
 - IEA/FSC member (1)
- The Council will task the Core Team to meet and collaboratively perform the following tasks:
 - Work with Council staff to identify funding for the process.
 - Select Scenario Planning facilitation and advisory support to assist with the process
 - Refine the Scenario Planning topic, identify data/information, additional expertise needed
 - Develop Scenario Planning process which may include workshops/meetings, reports, Council touchpoints, facilitation, community outreach/engagement, etc.
 - Identify Scenario Planning process participants
 - Define timeline to complete Scenario Planning by March 2020
 - Refine Desired Outcome of SP process

- The Core Team will provide an update on the Scenario Planning tasks at the September 2019 meeting, and ask for final decision from Council on details of the Scenario Planning process.

Caren Braby/John Ugoretz (Motion 2 as amended carried unanimously)

Motion 3: Council direct the Ecosystem Work Group (EWG) to update the Fisheries Ecosystem Plan (FEP) as follows:

1. Update the Vision and Purpose Goals and Objectives described in the EWG report ([Agenda Item E.3.a, EWG Report 1](#)), including the addition of ecosystem-level, outcome-oriented, goals that particularly focus on the ecosystem within the context of a changing climate as described in the EWG report.
2. Consider public and advisory body comments and present alternative revisions to the Council for review and approval at the Council's September 2019 meeting.
3. Review the FEP in detail and recommend comprehensive FEP update alternatives for review at the Council's March 2020 meeting, based on revisions to the Vision Statement, Purpose Statement, Goals, and Objectives; information generated during the pursuit of the Climate and Communities Initiative; and information on the current or potential future uses of the FEP.

John Ugoretz/Rich Lincoln (Motion 3 as amended carried unanimously)

Motion 4: Council adopt the 2019 stock abundance forecasts ABCs ACLs as outlined in [Agenda Item D.3.a, Supplemental SSC Report 1](#).

Brett Kormos/Kyle Adicks (Motion 4 carried unanimously)

Motion 5: Council adopt for STT analysis the proposed initial salmon management alternatives for the 2019 tribal ocean fisheries as described in [Agenda Item D4a, Supplemental Tribal Report 3, March 8, 2019](#). With one exception, the middle option for coho should be 55,000 instead of 45,000.

3.8pm2 (15 minutes in) - Joe Oatman/Kyle Adicks (Motion 5 carried unanimously)

Motion 6: Council adopt for STT compilation and analysis the proposed initial salmon management alternatives for the 2019 non-Indian ocean fisheries from Cape Falcon to the U.S./Canada border as developed by the SAS and described in [Agenda Item D.4.a, Supplemental SAS Report 1, March 8, 2019](#), with the modifications described by the SAS during their presentation.

Kyle Adicks/Rich Lincoln (Motion 6 carried unanimously)

Motion 7: Council adopt for STT compilation and analysis the proposed initial salmon management alternatives for the Oregon 2019 non-Indian ocean fisheries as developed by the SAS and described in [Agenda Item D.4.a, Supplemental SAS Report 1, March 8, 2019](#).

Chris Kern/Christa Svensson (Motion 7 carried unanimously)

Motion 8: Council tentatively adopt for STT collation and analysis the salmon management measures for the 2019 commercial and recreational ocean fisheries in the area from the Oregon/California border to the U.S./Mexico border as presented in [Agenda Item D.4.a, SAS](#)

[Report dated March 8, 2019](#) including the commercial and recreational requirements, definitions, restrictions, or exceptions. With the following modifications:

Recreational Fishery, Page 16, Alternative III,

Fort Bragg Management Zone

San Francisco Management Zone

Replace May 25 – October 31 with April 6 – October 31

Brett Kormos/Bob Dooley (Motion 8 carried unanimously)

Motion 9: Council approve the revisions to the groundfish FMP as shown in [G.2 Attachment 1](#), March 2019, with additional changes as proposed in the following March 2019 reports:

- [G.2.a Project Team Report 1](#), with the modifications to section 7.4 in [G.2.a, Supplemental GMT Report 1](#)
- [G.2.a Supplemental ODFW Report 1](#), except:
 - In #1, replace the proposed addition “certain types of fishing” with “certain fishing gear or methods”
 - in #3 do not include the underlined phrase “with bottom contact gear”
 - do not use #4
- [G.2.a Supplemental REVISED HC Report 1](#) including the attachment, except:
 - In the list of habitat objectives on page 3, replace “all managed species and life stages” with “all groundfish FMP species and life stages”
 - Noting that in the same list, the fifth bullet should be split to begin a sixth bullet with “Conduct scientific research...”
- Remove references to COP 22 in the FMP, as described in [G.2.a, Supplemental GAP Report 1](#).

In addition, approve the FMP appendices, and allow Council staff, with the support of the Project Team, to further update the FMP and appendices consistent with EFH regulations and Council recommendations. Additional public input regarding corrections to the appendices should be directed to Council staff no later than Monday, March 25, 2019. The FMP and appendices would then be submitted for Secretarial review without further review by the Council.

Maggie Sommers/Brad Pettinger (Motion 9 carried unanimously)

Motion 10: Council:

1. Approve [COP-22](#) with revisions proposed below for further review.

DRAFT COUNCIL OPERATING PROCEDURE 22: PROCESS FOR ESSENTIAL FISH HABITAT REVIEW AND MODIFICATION

PURPOSE

To guide the Council’s review and modification of essential fish habitat (EFH) provisions in FMPs, including identification and description of EFH, fishing and non-fishing impacts, recommended conservation measures, habitat areas of particular concern, and other provisions of EFH.

OBJECTIVES

1. To ensure that the EFH provisions in the Council's FMPs are consistent with the best scientific information available.
2. To ensure a transparent **and efficient science-based** process for review of new information, and consideration of any potential changes to EFH provisions.

EFH PERIODIC REVIEW PROCESS

No more than five years after completing a review and any modifications of an FMP's EFH provisions, the Council **should initiate a new review. The Council may conduct a review of some EFH elements, such as HAPC, in the interim period; however, changes to HAPC or other EFH elements in between full EFH reviews will only be contemplated in unusual cases in which notable harm might result by inaction. The review should include the** evaluation of published and unpublished scientific literature and reports, information from interested parties, and previously unavailable or inaccessible data. The Council will identify the appropriate Council and/or National Marine Fisheries Service staff lead(s) to coordinate the review, working with subject area experts, Council Advisory Bodies, and others to complete a review consistent with Federal regulatory guidance at 50 CFR 600, Subpart J.

In determining the scope and schedule of the review, the Council should consider recommendations from prior reviews, clearly identify the purpose and **measurable** objectives for the review **and habitat conservation objectives for any amendments to EFH**, and solicit input from its Advisory Bodies **and the public**.

As appropriate, the review may be scoped in two phases. In the first phase the project lead(s) and subject matter experts **(i.e., federal/state agencies, tribes, academia)** will conduct a thorough review of the best available scientific information on the EFH provisions contained in a particular FMP. Based on this review, **and considering input from its advisory bodies and the public**, the Council may embark on a second phase in which changes to EFH provisions **for that FMP**, as well as commensurate minimization measures, are considered for Council adoption.

Prior to initiating a review, the Council should adopt a **process and** schedule for both the review phase, and if necessary, the second phase in which changes to EFH provisions are considered. **The process and schedule will contain details such as key participants and steps relevant to the subject FMP.**

2. Initiate an "Amendment 28 post-mortem" by requesting the EFH Project Team to consider how to conduct a survey of all interested individuals to gather the lessons learned and recommendations for EFH review procedures. The PT should report back to the Council with plans for such a survey.

3. Develop groundfish EFH review guidelines after receiving the post-mortem survey feedback and prior to initiating the next full EFH review.

Maggie Sommers/Michele Culver (Motion 10 as amended carried unanimously)

Motion 11: Council amend a prior motion regarding Agenda Item F.3 from April 2018. Add a second bullet under Subject Area 1, Alternative 1.a - Collaborative, that reads as follows:

- With Arago Reef expanded slightly from Alternative 1.a such that it closes all of the EEZ between the northern, western and southern boundaries, as shown in [Agenda Item G.2.a, NMFS Report 1, March 2019](#).

Maggie Sommers/Michele Culver (Motion 11 carried unanimously)

Motion 12: Council adopt the new sigma values for groundfish and coastal pelagic species stocks as recommended by the SSC in [Agenda Item G.3.a, Supplemental SSC Report 1](#). This includes the updated baseline sigma values and the recommended increase in sigma due to stock assessment age.

Additionally, request that the Northwest and Southwest Fisheries Science Centers' groundfish stock assessors work with others, as appropriate, to further explore and develop methods for improved sigma baseline and age increase values that may be stock-specific, stock category-specific, or related to groups of stocks with similar life history parameters. The intent would be to explore and develop these refined methods for SSC and Council consideration, preferably prior to the selection of priority groundfish stocks for the 2023-2024 assessment cycle.

Michele Culver/Rich Lincoln (Motion 12 carried, Mr. Zimm voted no).

Motion 13: Council adopt the recommendations in [G.4.a, Supplemental GAP Report 1](#), with the clarification that the scope of the MS utilization issue would include the third item that had been stricken in the supplemental public comment report and include flexibility to consider other alternatives that could also address these issues. I would also include the additional items identified in [G.4.a, Supplemental GMT Report 4](#) and [Supplemental EC Report 1](#) on the omnibus list, but not as priorities at this time.

Michele Culver/Maggie Sommers (Motion 13 carried unanimously)

Motion 14: Council adopt the inseason adjustment recommendations as identified in [Agenda Item G.5.a, Supplemental GAP Report 1](#).

Marci Yaremko/Bob Dooley (Motion 14 carried unanimously)

Motion 15: Council adopt for public review the range of options for halibut landing restrictions in the 2019 salmon troll fishery beginning May 1, and for April 1-30, 2020 as presented in [Agenda Item H.2.a, Supplemental SAS Report 1](#).

Maggie Sommers/Christa Svensson (Motion 15 carried unanimously)

Motion 16: Council adopt final halibut restrictions for the fixed gear sablefish fishery north of Point Chehalis from April 1 to October 31, 2019 as presented in [Agenda Item H.2.a, Supplemental GAP Report 1](#).

Michele Culver/Rich Lincoln (Motion 16 carried unanimously)

Motion 17: Council appoint Mr. Greg Krutzikowsky to the Oregon Department of Fish and Wildlife seat on the Coastal Pelagic Species Management team formerly held by Ms. Cyreis Schmitt and appoint Mr. Patrick Mirick to the Oregon Department of Fish and Wildlife seat on the Groundfish Endangered Species Workgroup formerly held by Dr. Caren Braby.
Chris Kern/Brad Pettinger (Motion 17 carried unanimously)

Motion 18: Council appoint Ms. Caroline McKnight to the current California Department of Fish Wildlife vacancy on the Groundfish Management Team.
Brett Kormos/Bob Dooley (Motion 18 carried unanimously)

Motion 19: Council appoint Ms. Melinda Rowse to the NMFS Northwest Fisheries Science Center seat on the Salmon Technical Team formerly held by Dr. Robert Kope.
Ryan Wulff/Herb Pollard (Motion 19 carried unanimously)

Motion 20: Council appoint Mr. Jon Pink to the current Washington Coastal Tribal Fisheries vacancy on the Salmon Advisory Subpanel.
Joe Oatman/Kyle Adicks (Motion 20 carried unanimously)

Motion 21: Council adopt the 247th session of the November 2018 Council meeting record as shown in [Agenda Item C.4, Attachment 1, March 2019](#).
Herb Pollard/Pete Hassemer (Motion 21 carried unanimously)

Motion 22: For non-Indian commercial and recreational fisheries in the area North of Cape Falcon, I move to adopt for public review the alternatives as presented in [Agenda Item D.8.a, Supplemental STT Report 1 \(March 12, 2019\)](#).
Kyle Adicks/Rich Lincoln (Motion carried unanimously)

Motion 23: For commercial and recreational fisheries from Cape Falcon to the Oregon/California border, I move to adopt for public review the alternatives as presented in [Agenda Item D.8.a Supplemental STT Report 1, dated March 12, 2019](#).
Chris Kern/Christa Svensson (Motion 23 carried unanimously)

Motion 24: Council to adopt for STT collation, analysis and public review the salmon management measures for the 2019 commercial and recreational ocean fisheries in the area from the Oregon/California border to the U.S./Mexico border as presented in [Agenda Item D.8.a, Supplemental STT Report 1 dated March 12 2019](#), including the commercial and recreational requirements, definitions, restrictions, or exceptions.

With the following change:

Klamath River Fall Chinook Minimum Natural Area Adult Escapement

Klamath River Recreational Fishery Share – page 22

Table 5

Alternatives 1 and 2

Adjust the Klamath River recreational fishery share such that the projected natural area adult spawner escapement equals 40,700.

Alternative 3

Adjust the Klamath River recreational fishery share such that the projected natural area adult spawner escapement equals 45,000.

Brett Kormos/Marc Gorelnik (Motion 24 carried unanimously)

Motion 25: For tribal ocean fisheries in the area North of Cape Falcon, I move to adopt for public review the alternatives as presented in [Agenda Item D.8.a Supplemental STT Report 1, Table 3 \(March 12, 2019\)](#).

Joe Oatman/Kyle Adicks (Motion 25 carried unanimously)
