

GROUND FISH MANAGEMENT TEAM REPORT ON ALLOCATION REVIEW
PROCEDURES- FINAL ACTION

The Groundfish Management Team (GMT) reviewed the proposed Council Operating Procedure (COP) 27 ([Agenda Item D.4, Attachment 2, June 2019](#)) and was briefed on this item by Dr. Jim Seger of Pacific Fishery Management Council (Council) staff on our June 12th webinar. We appreciate that the comments and suggestions from the April 2019 Council meeting were incorporated and addressed. **The GMT recommends the Council adopt COP 27 as final.**
