

Deep-Set Buoy Gear Application

Thursday, April 11, 2019

Application Date Thursday, April 11, 2019

Applicant(s):

***We have provided room for two applicant names below - Applicant a) and Applicant b). If you have additional applicants/vessels/participants, please fill them in the field at the bottom of this form.**

Applicant a) Nicholas Guglielmo

Email phillipnick77@gmail.com

Phone Number (310) 650-8504

Address 1185 South Victoria Ave #171
Oxnard, California, 93035

Commercial Fishing Permits Held: general gillnet permit, lobster permit, southern rock crab permit, HMS permit

Commercial Fishing Experience:

	Years of Experience	Gear type / Type of participation (Captain, Crew, Vessel owner, etc.)
DSBG	0	
Other swordfish gear	0	
Other gear type(s)	17	drift gill net/gillnet/trapping-vessel owner, captain, crew

Applicant b) Nicholas Guglielmo

Email njgugie@gmail.com

Phone Number (310) 486-6887

Address 1185 South Victoria Ave #110
Oxnard, California, 93035

Commercial Fishing Permits Held: nearshore hook permit, general gillnet permit, lobster permit, southern rock crab permit, HMS permit

Commercial Fishing Experience:

	Years of Experience	Gear type / Type of participation (Captain, Crew, Vessel owner, etc.)

DSBG	0	
Other swordfish gear	44	harpoon, drift gill net
Other gear type(s)	44	drift gill net, gillnet, trapping-vessel owner, captain, crew

Number of vessels*: 2

Vessel a) Name: Phillip Nick

Registration Number: 906370

Name of Operator: Nicholas M Guglielmo

Commercial Fishing Permits Held: general gillnet permit, lobster permit, southern rock crab permit, HMS permit

Vessel b) Name: Sandy Bea

Registration Number: 1078115

Name of Operator: Nicholas J Guglielmo

Commercial Fishing Permits Held: nearshore hook permit, general gillnet permit, lobster permit, southern rock crab permit, HMS permit

*List information for additional EFP applicants/vessels/participants in the field at the bottom of this form.

Do any of the applicants/vessel operators have current/pending state or federal violations in any commercial fishery? (If Yes, follow-up on the nature and status of any violations may be required as part of the application review process).

No

Duration: The EFP will normally be issued for a two-year period from the date of issuance. If you have good reason for receiving an EFP for a longer period, specify the requested number of years and provide justification for the longer duration:

5 years. With my my grandpa fishing since 1940s and my dad fishing since the 1970s we feel we have enough experience to be able to hold the permit longer and help provide additional data and assist in (long buoy gear) LBG fishery.

Intended DSBG Configuration (See [Attachment A](#))

Standard Linked

Do you intend to target any species other than swordfish? (This does not include other species that get caught incidentally when targeting swordfish)

No

Fishing Area and Effort:

	Number of vessels/Vessel names	Estimated fishing effort in number of days or sets
Southern California Bight (Pt. Conception to the U.S.-Mex. Border)	Phillip Nick, Sandy Bea	100 days
Central California (Point Reyes to Point Conception)		
Northern California (42 degrees N. latitude to Point Reyes)		
Oregon (Columbia River to 42 degrees N. latitude)		

Please note that applications to fish outside the Southern California Bight will be looked on more favorably in the review process.

Additional information you think would be helpful in reviewing the application concerning where you plan to fish and the amount of fishing:

We are planning to fish between point conception to Catalina, we are 3 generations of commercial fishermen and hope to carry on our legacy for generations to come.

Data Gaps: Will your EFP fishing specifically address any of the following data gaps? (See [Attachment B](#) for descriptions)

Active gear tending

Gear conflicts/number of vessels

Explain what methods you would use, or information you plan to gather, to address the data gaps you checked off above:

Active gear tending: Gear will be deployed in a manner that ensures it is actively tended and continuously monitored. Strike will be tended to as quickly as possible to aid in the quick and safe release of unmarketable or protected species.

Gear conflict/number of vessels: Our goal is to avoid over crowding a specific area and will be concentrating outside the 3nm from shore and between pt conception to Catalina . We expect few vessel interactions and gear conflict being outside the Channel Islands and Catalina are

Reporting Requirements and Observer Coverage:

- You must maintain a logbook for reporting catch and other operational information (such as time and location of catch) in a format specified by National Marine Fisheries Service
- Up to 100% observer coverage may be required on your EFP fishing trips
- Data gathered as part of the EFP will be publicly available

I acknowledge the above conditions, and verify that I am willing and able to cover the cost of any level of observer coverage required under permit terms and conditions.

Yes
