a/ Although the Skagit River escapement goal would not be achieved, management was based on meeting WDFW's escapement goal for Hoh River coho and allocation based on aggregation to Washington coastal tribes.

b/ The Council management regime was not expected to meet equitable adjustment requirements for Skagit River coho.

c/ Plus 7,430 hooking mortality for pink fishery.

d/ Plus 3,250 hooking mortality for pink fishery.

e/ Hooking mortality of 2,800 coho for June 1-15 fishery not included.

f/ Plus 1,200 hook-and-release mortality for the Neah Bay all-salmon-except-coho fishery.

g/ Marked hatchery coho only (healed adipose fin clip).

h/ Sharing of impacts on ESA listed Puget Sound Chinook also affected the shaping of ocean and inside fisheries.

i/ For 2002, the Council elected to constrain fishing so that the OCN exploitation rate would not exceed 12.5 percent per ODFW's recommendation to provide additional protection for lower Columbia River natural coho, which are listed as endangered under the Oregon State-ESA. The FMP objective for OCN coho was 15 percent.

j/ Includes mark-selective fishery quotas of: 12,000 (5,000 non-mark selective quota) in 2010, 4,800 (2,000 non-mark selective quota) in 2011, 8,000 in 2012 and 2013 (4,000 non-mark selective quota), 9,000 (4,500 non-mark selective) in 2014, and 10,000 in 2015 (4,000 non-mark selective).

- April 3: North of Cape Falcon (NOF) Salmon Forum meets in Lynnwood, WA to further consider recommendations for treaty Indian and non-Indian salmon management alternatives.
- June 14: effective June 19. The commercial salmon fishery from the US-Canada border to Queets River, WA state marine areas 3 and 4, is closed to Chinook salmon retention. Fishers have 24 hours to land their catch after the June 19 closure.
- June 24: effective July 1. Retention of halibut caught incidental to the commercial salmon fishery off Washington, Oregon, and California will be extended with a landing and possession limit of 15 halibut per vessel per trip. Other landing restrictions remain as set pre-season, including license holders may land or possess no more than one Pacific halibut per two Chinook, except one halibut may be possessed or landed without meeting the ratio requirement.
- June 24: effective June 24. The commercial ocean salmon fishery from the U.S./Canada border to Queets River, WA reopens from 1 pm, June 24 through 11:59 pm, June 28 with a landing and possession limit of 20 Chinook salmon per vessel for the open period. All other regulations for the May-June commercial salmon fishery remain as set pre-season.
- July 3: effective July 4. Unutilized June quota in the Oregon Klamath management zone (KMZ, Humbug Mountain, OR to the OR/CA border) commercial ocean salmon fishery has been rolled over to July on an impact-neutral basis. The revised July quota for the commercial ocean salmon fishery in the Oregon KMZ is adjusted from 2,500 to 4,495 Chinook salmon.
- July 3: effective July 4. The landing limit in the commercial ocean salmon fishery in the Oregon KMZ (Humbug Mountain, OR to the OR/CA border) is increased to 125 Chinook salmon per vessel per landing week, effective 12:01 a.m., July 4, 2019.
- July 3: effective July 4. Unutilized June quota in the California KMZ (OR/CA border to Horse Mountain, CA) commercial ocean salmon fishery has been rolled over to July on an impact-neutral basis. The revised July quota for the commercial ocean salmon fishery is adjusted from 2,500 to 3,997 Chinook salmon.
- July 3: effective July 8. The recreational bag limit in the Neah Bay subarea (U.S./Canada border to Cape Alava) is two salmon per day, only one of which may be a Chinook salmon.
- July 12: effective July 12. Remaining Chinook quota from the May-June commercial fishery north of Cape Falcon, OR is rolled over to the July-September fishery on an impact-neutral basis. The new July-September quota is increased from 13,050 to 19,257 Chinook salmon.
