

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL
REPORT ON STANDARDIZED BYCATCH REPORTING METHODOLOGY

The Highly Migratory Species Advisory Subpanel (HMSAS) received a presentation by Brett Wiedoff on the Standardized Bycatch Reporting Methodology (SBRM). The HMSAS suggest that the proposed activity of determining the sufficiency and completion of the SBRM is best tasked to the HMS Management Team (HMSMT). We look forward to the results from the HMSMT in March 2021.
