

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL (HMSAS)  
REPORT ON FUTURE COUNCIL MEETING AGENDA AND WORKLOAD PLANNING

The HMSAS recommends the Council remove the following shaded items from the proposed March 2021 meeting: (1) Biennial Management Measures and Harvest Specifications – Final (1 hr 30 min); and (2) Swordfish Management and Monitoring Plan (2 hr) and replacing them with a discussion of hard caps with the potential of setting a range of alternatives. We also recommend scheduling time to review some of the issues around deep-set buoy gear authorization that were noted in the [Agenda Item I.1.a, Supplemental NMFS Report 1](#).
