

ECOSYSTEM ADVISORY SUBPANEL REPORT ON
FUTURE COUNCIL MEETING AGENDA AND WORKLOAD PLANNING

The Ecosystem Advisory Subpanel (EAS) appreciates the opportunity to provide feedback on the future Council meeting agenda. We have three requests:

- We ask that the EAS not meet on September 7-8, 2021 dates, so that members may observe Rosh Hashanah.
- The EAS would like to discuss the Research and Data Needs Update, currently agendized for April 2021.
- The EAS would like to discuss the three-year term appointments – advisory body composition, currently agendized for June 2021.

The EAS typically meets twice a year, in March and in September, thus we do not anticipate an opportunity to meet on the above agenda items unless specifically planned. We note that a single, half-day webinar ahead of the April Council meeting would likely be sufficient to address both agenda items.
