

# Agenda Item I.2 Climate and Communities Initiative Workshop Report

## Council Action:

- Review the Phase 2 Workshop Report and Provide Guidance on the Scenario Planning Exercise and Completion of the Initiative

DRAFT-NOT FOR ADMINISTRATIVE PURPOSES

**ODFW motion on I2. Climate and Communities Initiative (Moved by Caren Braby; 2<sup>nd</sup> by Brad Pettinger)**

I move that the Council:

1. Adopt the Report on Regional Workshops as one of the products developed during the CCI.
2. Task the Core Team to provide a brief summary and synthesis report to the Council at the September 2021 meeting that includes:
  - a. Consideration of the 9 priority action areas summarized in the Report on Regional Workshops; prioritize the action areas for PFMC action, and for action by non-PFMC partners
  - b. Recommendations on next steps by Council and Council AB's/MT's (potentially including NMFS FSC's & WCR); may also include recommendations for additional FEP Initiative concepts for consideration.
3. Task the Core Team to provide a briefing workshop on the summary/synthesis report to

Council AB's/MT's prior to the September 2021 meeting

4. Consider FEP Initiatives in March 2022, as scheduled.

5. Task Council staff to prepare a letter for submission to NMFS in response to the call for information on climate-resilient fisheries (per Sam Rauch presentation to the Council on March 8, 2021; relating to President Biden Executive Order 14008). Letter for timely submission in April 2021, and to include:

a. Brief list of recent activities of the PFMC to prepare fisheries for climate-resilience, including links to CCI reports already completed.

b. Highlight the in-progress work on climate-resilient fisheries.

i. Preview the CCI conclusion in September 2021

ii. Preview the FEP review process, including Chapter 5 (as described in March 2021, Agenda Item I3, Supplemental EWG Report 3).

c. Confirm that the PFMC appreciates that NMFS intends for this to be an on-going collaboration with the PFMC.

d. Indicate that NMFS support of PFMC's climate work is needed, both intellectually and financially.

Motion passed.

Frank Lockhart (NMFS) abstained
