

COASTAL PELAGIC SPECIES MANAGEMENT TEAM REPORT ON
FISHERY ECOSYSTEM PLAN FIVE-YEAR REVIEW UPDATE

Several members of the Coastal Pelagic Species Management Team (CPSMT) attended the online webinar on September 2, 2021 presented by the Ecosystem Work Group (EWG) on updates to the Fishery Ecosystem Plan (FEP) Five-Year Review, and the entire CPSMT has reviewed [EWG Report 1 under Agenda Item H.1.a](#). The CPSMT has directly provided the EWG with specific comments on this draft for their consideration.

The CPSMT recognizes the extent of work by the EWG and commends them on the revised chapters and the new Chapter 5 of the FEP. In addition, as addressed in Chapter 5, the CPSMT looks forward to potential new tools that could bring more ecosystem information into the Pacific Fishery Management Council process.
