

COASTAL PELAGIC SPECIES ADVISORY SUBPANEL REPORT ON FUTURE COUNCIL  
MEETING AGENDA AND WORKLOAD PLANNING

In discussion on this agenda item, the Coastal Pelagic Species Advisory Subpanel (CPSAS) has decided that for the upcoming March 2022 meeting, if the Council makes a decision to meet in person, the CPSAS would like to meet virtually. Since there are no CPS agenda items on the March 2022, agenda the CPSAS believes they can conduct the meeting effectively using the Ring Central site. For the April 2022 meeting, the CPSAS would meet in person if the Council decides to have an in-person meeting.
