

C.8 Standardized Bycatch Reporting Methodology - Final Action

Council Action:

Identify Compliant Fishery Management Plans (FMP) and Adopt Final Preferred Alternatives for FMP Amendments, as Necessary.

DRAFT-NOT FOR ADMINISTRATIVE PURPOSES

C 8 motion

I move that the Council adopt the FMP amendment language in C8, Attachment 1 for the Salmon, HMS, and CPS FMPs to bring the FMPs into compliance with the NMFS SBRM final rule, including the one minor edit recommended by the CPSMT in their report. The Council also affirms that the Groundfish FMP is compliant with the final rule and no amendment is necessary. Rationale for these decisions can be found in the respective management team's statements from June 2021 (C.2.a Supplemental GMT Report 1), September 2021 (E.5.a Supplemental HMSMT Report 1, E.5.a Supplemental CPSMT Report 1) and November 2021 (C.8.a. Supplemental STT Report 1).

Moved by John Ugoretz

Second by Corey Ridings

Motion passed unanimously.
