

COASTAL PELAGIC SPECIES ADVISORY SUBPANEL REPORT ON  
MEMBERSHIP APPOINTMENTS AND COUNCIL OPERATING PROCEDURES

The Coastal Pelagic Species Advisory Subpanel (CPSAS) read the Coastal Pelagic Species Management Team (CPSMT) Report on Council Operating Procedure (COP) 9, Schedule 3 (C.9.a, CPSMT Report 1), which recommended changes to incorporate the management framework for the central subpopulation of northern anchovy (CSNA).

The CPSAS compliments the CPSMT for its forethought and extensive work to integrate the new management framework and schedule. We concur with the CPSMT recommendation for the Council to adopt the version of COP 9 Schedule 3 in Attachment 1 to the CPSMT Report that clearly captures the intricacies of the CSNA flowchart.
