

Agenda Item E.5.a. Supplemental GMT Report 2

Action Items #1, 2, 4-11
RCAs, Allocations, and Harvest Guidelines

Action Item Checklist #1-2 and #4-11

Action Item #1: Any Outstanding Specifications

Action Item #2: Updates to Selected RCA Coordinates

~~Action Item #3: Off-the-Deductions~~ ✓

Action Item #4: Treaty Fisheries Management

Action Item #5: Annual Catch Targets

Action Item #6: Two-Year Trawl/Non-Trawl Allocations

Action Item #7: Amendment 21 Trawl/Non-Trawl Allocations

Action Item #8: Recommend Harvest Guidelines for Species Managed within a Complex

Action Item #9: Within-Trawl Allocations

Action Item #10: At-Sea Set-Asides

Action Item #11: Within Non-Trawl HGs/Shares

Action Item # 1: Any Outstanding Specifications

- None identified at this time

Action Item # 2: RCA Coordinate Updates

- Minor adjustments to NTRCA off CA to better align with bathymetry lines and depth contour crossovers
- **GMT recommends these adjustments, as we have in past cycles**

Action Item # 4: Treaty Fisheries Management

- **GMT recommends removing this item from the action item checklist** (*and future checklists*) as tribes self-manage within their set-asides.
- Requested set-asides for off-the-top deductions and GMT considerations are included in Action Item #3

Action Item # 5: ACTs

Cowcod S of 40°10'

- For precaution and flexibility
- **The GMT recommends analyzing a single ACT of 50 mt for cowcod south of 40° 10' N. lat.**

No other ACTs recommended

- Yelloweye rockfish will be discussed under a item #11

Action Item # 6: Two-Year Trawl / Non-Trawl Allocations

GMT recommends only analyzing No Action:

Stock	Trawl Proportion	Non-trawl Proportion
Yelloweye RF	8%	92%
Bocaccio S 40°10'	39%	61%
Canary RF	72.3%	27.7%
Cowcod S 40°10'	36%	64%
Big skate	95%	5%
Longnose skate	90%	10%
Shelf RF N 40°10'	60.2%	39.8%
Shelf RF S 40°10'	12.2%	87.8%

Action Item # 6: Two-Year Trawl / Non-Trawl Allocations

- *Species Removed from Complex*
 - *Only species being removed from a complex is quillback rockfish from the Nearshore Rockfish Complex south of 40° 10' N lat.*
 - *no trawl/non-trawl allocations for this complex*

Action Item # 7: A-21 Trawl / Non-Trawl Allocations

Lingcod S 40°10'

- Currently A-21:
 - 40% trawl
 - 60% non-trawl
- Low attainment by trawl & non-trawl

GMT

recommendations:

No Action

Year	ACL (mt)	Fishery HG (mt)	Trawl Alloc. (40%)	Trawl Hist Mort. 2011-2020 (mt)	Trawl % attain.	Non-Trawl Alloc. (60%)	Non-Trawl Hist Mort. 2011-2020 (mt)	Non-Trawl% attain.
2023	739	726	290.4	6.0 - 80.2	1- 17%	435.6	208.9 - 680.2	18 - 127%
2024	740	727	290.8			436.2		

Action Item # 8: HGs for stocks within a complex

- Blackgill rockfish - Slope Rockfish South of 40°10' N. lat
 - Continue A-26 allocations of 41% to trawl and 59% to non-trawl
 - Continue A-21 allocations to the remaining other slope species in the complex of 63% to trawl & 37% to non-trawl
 - *Table on next slide*
- OR black/blue/deacon rockfish complex
 - No HGs needed at this time
- OR and WA cabezon/kelp greenling complexes
 - No HGs needed at this time
- Nearshore Rockfish north of 40°10' N lat.-state HGs
 - Discussed under Action Item #11

Action Item # 8: HGs for stocks within a complex

Blackgill RF Category	2023		2024	
	Trawl (mt)	Non-trawl (mt)	Trawl (mt)	Non-trawl (mt)
Blackgill rockfish share	70.7	101.7	169.9	69.7
Other rockfish slope share	330.5	197.1	334.6	196.5
Subtotal share	401.2	298.8	504.5	266.2
Total	700		770.7	
% of total share	57.31%	42.69%	65.46%	34.54%
Total combined off-top	39		39	
Apportioned off-top	22.4	16.6	25.5	13.5
Final two-year allocation	378.8	282.2	479.0	252.7

Action Item # 9: Within Trawl Allocations

- **GMT recommends removing this item from the action item checklist**, as former within-trawl allocations were converted to set-asides

Action Item # 10: At-Sea Set-Asides

- Many changes to at-sea set-asides for the 2021-2022 biennium to accommodate expected mortality in both the at-sea and IFQ sectors
 - Based on a lot of coordination and communication by industry with GMT
- **The GMT does not recommend any adjustments for the 2023-24 biennium.**

Action Item #11: Within Non-Trawl HGs/Shares

Yelloweye Rockfish

- Continuing to rebuild well ahead schedule
- **GMT recommends continuing SQ sharing proportions**
- Non-trawl uses both an ACT and HGs for precaution and flexibility
 - Manage to lower ACT, with higher HG for cushion

Sector	Draft 23-24 HG (mt)	Draft 2023 ACT (mt)	Draft 2024 ACT (mt)
Non- Nearshore	10.6	8.4	8.5
Nearshore			
WA Rec.	13.2	10.3	10.3
OR Rec.	11.7	9.2	9.2
CA Rec	15.2	11.9	11.9
Total	50.8	39.8	39.8

Action Item #11: Within Non-Trawl HGs/Shares

Cowcod S 40°10'

Recommend analyzing FG shares

- 50-50 split of the non-trawl allocation to recreational and commercial

Bocaccio S 40°10'

Combined the non-nearshore & nearshore

- 0.4% to nearshore had no function
- Remnant from overfished era

Sector	2023 Allocation (mt)	SQ %
Non-Trawl	1,094.5	100%
Non- Nearshore	338.2	30.9%
Nearshore		
CA Rec.	756.3	69.1%

Action Item #11: Within Non-Trawl HGs/Shares

Sablefish S of 36°

- Low attainment in both LEFG and OA sectors in south, so **the GMT recommends No Action (70-30 split)**

Action Item #11: Within Non-Trawl HGs/Shares

State shares of Nearshore Rockfish complex north 40°10' N lat.

- **GMT recommends SQ sharing arrangement to set state-specific HGs**
- Proposed state HGs are provided in Table 21 in Supplement GMT Report 2
