

HABITAT ISSUES

The Habitat Committee (HC) will meet on Tuesday and Wednesday, March 8 - 9, 2022, to discuss Marine Planning, Ecosystem matters, Klamath dam removal, and other habitat-related topics.

At its November 2021 meeting, the Pacific Fishery Management Council (Council) directed the HC to track the Nordic Aquafarms Environmental Impact Review (EIR) and prepare a letter for Council consideration once the EIR becomes available. The EIR was released in December 2021, with a comment period that closed on February 18, 2022. The HC drafted a letter for Council consideration under the quick response procedure, and the Council response was not available at the time of the advance Briefing Book.

Council Action:

Consider comments and recommendations developed by the HC.

Reference Materials:

1. *Agenda Item G.1.a, Supplemental HC Report 1.*
2. If received, public comments are electronic only ([see e-portal](#)).

Agenda Order:

G.1 Current Habitat Issues

- a. Report of the Habitat Committee
- b. Reports and Comments of Management Entities and Advisory Bodies
- c. Public Comment
- d. **Council Action:** Consider Habitat Committee Report and Recommendations
