

ECOSYSTEM WORKGROUP REPORT ON THE
FUTURE COUNCIL MEETING AGENDA AND WORKLOAD PLANNING

The Ecosystem Workgroup (EWG) reviewed the proposed ecosystem management agenda items on the Pacific Fishery Management Council (Council's) Preliminary Year-at-a-Glance (YAG) Summary (Agenda Item C.7, [Attachment 1](#)) and offers the following recommendation:

Unshade the Fishery Ecosystem Plan (FEP) Initiatives update for September and revise to include final adoption of the updated FEP Appendix.

Based on the Council's discussion under H.2 at this meeting, *2021-2022 California Current Ecosystem Status Report and Science Review Topics*, the EWG plans to work with the California Current Integrated Ecosystem Assessment (CCIEA) Team to develop Ecosystem Status Report word and figure limits that better support report automation than the current 20-page limit.
