

## INCIDENTAL CATCH LIMITS FOR 2022 SALMON TROLL FISHERY - FINAL ACTION

The 2022 Pacific halibut Catch Sharing Plan (CSP) for Area 2A allocates 15 percent of the non-Indian commercial halibut allocation to the salmon troll fishery as incidental catch. The primary management objective outlined in the CSP is to attain the incidental quota during the April through June salmon troll fishery, with a secondary objective to attain the balance of the incidental quota from July through the end of the salmon troll season.

The Pacific Fishery Management Council (Council) has successfully used landing ratios and a total trip limit to ensure a manageable progression of the fishery in past years. A summary of management information for the incidental halibut fishery is provided in Attachment 1.

The current (April 1-May 15) landing restrictions are no more than one halibut per each two Chinook, except one halibut may be landed without meeting the ratio requirement and no more than 35 halibut may be landed per trip. At the March meeting, the Council adopted for public review the following three options for incidental halibut retention in the 2022 salmon troll fishery beginning May 16:

Option 1 (status quo): License holders may land no more than one Pacific halibut per two Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 35 halibut landed per trip.

Option 2: Same as Option 1, except no more than 30 halibut may be landed per trip.

Option 3: Same as Option 1, except no more than 25 halibut may be landed per trip.

The landing restrictions adopted for the start of the salmon season beginning May 16, 2022 will also be in effect from April 1-May 15, 2023 unless modified through inseason action or until superseded by the 2022 management measures.

### **Council Action:**

**Adopt final landing restrictions for Pacific halibut caught incidentally in the non-Indian salmon troll fishery May 16, 2022 through the end of the 2022 salmon troll season, and prior to the effective date of 2023 management measures unless modified through inseason action.**
