

COASTAL PELAGIC SPECIES MANAGEMENT TEAM/ COASTAL PELAGIC SPECIES
ADVISORY SUBPANEL JOINT REPORT ON FISHERY ECOSYSTEM PLAN FIVE YEAR
REVIEW - FINAL ACTION

The Coastal Pelagic Species Management Team (CPSMT) and Coastal Pelagic Species Advisory Subpanel (CPSAS) recognize the extensive work done by the Ecosystem Work Group (EWG) to update and improve the Fishery Ecosystem Plan (FEP), and commend them on their Final Draft for Public Review ([Agenda Item H.1, Attachment 1, March 2022](#)). The CPSMT and CPSAS provided the EWG with specific comments on earlier drafts and thank the EWG for taking our suggestions under consideration. CPSMT members noted a number of additional instances in the Final Draft that could be modified to improve clarity and accuracy and intend to send these specifics directly to the EWG.
