

2023-2024 Management Measures-PPA

Action Items 2-11
Supplemental GMT Report 3

Item #3: Off-The-Top Deductions - Research

- **GMT recommends continued use of historical maximum for all species, except:**
 - Cowcod south of 40° 10' N. lat.
 - 2021-22 set-aside of 10 mt for research
 - **GMT does not see a need to change that value and recommends 10 mt for 2023-24**
 - Yelloweye rockfish
 - **2.92 mt for IPHC, WDFW, ODFW, CDFW, & other projects**

Item #3: Off-The-Top Deductions - Incidental Open Access

- **The GMT recommends continuing to set at the historical maximum for all species, except:**
 - **darkblotched rockfish (9.8 mt; historical average)**
 - **petrale sole (11.1 mt; historical average)**
 - **sablefish south of 36° N. lat. (25 mt; GMT best estimate)**
 - **yelloweye rockfish (2.66 mt; average of years directed P. halibut observed)**
 - **nearshore rockfish north (1.3 mt; average of years directed P. halibut observed)**

Item #3: Off-The-Top Deductions - Exempted Fishing Permits

- The GMT has not received notification of any potential changes
- Amounts adopted in November 2021 are listed in Appendix 1 of GMT Report 3

Item #4: Tribal

Set-aside (mt) requests

- Status quo, except:

Stock	2021 set-aside	2023-24 set-aside
Darkblotched rockfish	0.2	5
Pacific ocean perch	9.2	130

GMT recommends 2023-24 Tribal set-aside requests

Item #5: ACTs

- Cowcod south of 40° 10' N. lat.
 - **GMT recommends removing the 50 mt ACT (Option 1)**
- Quillback and copper rockfishes off CA:
 - Agenda Item F.4, Attachment 2 - proposed ACT-setting methodology based on percentage reductions (25%, 50%, or 75%)
 - Difficult to manage to harvest targets <2 mt and concerns with small sample sizes
 - Other potential methods:
 - ACT = ACL contribution
 - ACT = more conservative SPR harvest rate from rebuilding analysis (quillback rockfish only)
 - The GMT will monitor inseason and the Council should consider what routine management measures would be appropriate if ACT is exceeded
 - Trip limits, bag limits, season, etc.

Item #6: Two Year Trawl/Non-Trawl Allocations

- **The GMT recommends status quo allocations** (*next slide*)
 - Table 2 in GMT Report 3
