

# F.6 Non-trawl Sector Area Management Measures

## Council Action:

1. Review and potentially revise the range of alternatives, as appropriate.
2. Provide guidance on the development of analyses and schedule, as needed.

DRAFT-NOT FOR ADMINISTRATIVE PURPOSES

## **CDFW motion #1 on F.6 –**

**I move the revisions to the range of alternatives for non-trawl sector area management measures as recommended by the Groundfish Management Team in Agenda Item F.6.a, Supplemental GMT Report 1, April 2022.**

**Moved by Marci Yaremko**

**Second by Maggie Sommer**

**Motion passed unanimously.**

DRAFT-NOT FOR ADMINISTRATIVE PURPOSES

## F.6 ODFW motion - Nontrawl Sector Area Management Measures

I move the Council add to the Alternative 3 suboptions as follows:

For Suboption 1: Include an option to prohibit groundfish non-trawl bottom contact gear in the entire EFHCA for trawl EFHCAs with small portions outside the existing nontrawl RCA seaward boundary, as recommended in F.6.a Supplemental HC Report 1.

Add new Suboption 2: Prohibit commercial groundfish fishing with nontrawl bottom contact gear in the area west of the Heceta Bank EFHCA, as proposed in F.6.a Supplemental ODFW Report 1

Add new Suboption 3: Identify potential new Yelloweye Rockfish Conservation Areas (if any) that could be used to mitigate impacts to yelloweye rockfish resulting from this action, which could be implemented in biennial management measures or inseason action.

Request that Council staff:

- 1) Provide information on the type(s) and extent of area management measures that could achieve the intent of each suboption, and
- 2) Consider recommendations on analysis of Alternative 3 in F.6.a Supplemental HC Report 1 and Supplemental GAP Report 1, April 2022.

Moved by Maggie Sommer Second by Marci Yaremko

Motion passed unanimously.
