

GROUND FISH ADVISORY SUBPANEL REPORT ON MEMBERSHIP  
APPOINTMENTS AND COUNCIL OPERATING PROCEDURES

The Groundfish Advisory Subpanel (GAP) reviewed the [Supplemental Groundfish Management Team \(GMT\) Report 1](#) under this agenda item and agrees that an ad hoc workgroup with the expertise needed to conduct a review of stock complexes and defining stocks is necessary. The GAP also supports the GMT's proposal for the core composition of the group. The GAP considers this an important issue and believes GAP representatives (one recreational, one commercial) could help inform the discussion related to stock complexes and defining stocks.
