

# D.1 Central Subpopulation of Northern Anchovy Assessment and Harvest Specifications

## Council Action:

1. Adopt the Central Subpopulation of Northern Anchovy Stock Assessment.
2. Consider recommending OFL, ABC, ACL, and if appropriate, annual catch target specifications and management measures.

DRAFT-NOT FOR ADMINISTRATIVE PURPOSES

I move the Council adopt the following for the central subpopulation for northern anchovy:

- Overfishing limit: 243,779 mt
- Allowable biological catch: 60,945 mt
- Annual catch limit: 25,000 Metric tons

Moved by Briana Brady

Seconded by Phil Anderson

Motion passes unanimously
