VIRTUAL WORKSHOP

Agenda Item H.1.a
Supplemental NMFS Report 2
November 2022

OREGON SEA GRANT WILL HOST A

SABLEFISH GEAR MARKING WORKSHOP

Provide input to NOAA Fisheries about gear marking options that will make **sablefish pot gear** easier to ID if it is involved in a whale entanglement.

Register at beav.es/ihe or use the QR code below.

Photo taken under NOAA/NMFS research permit #21678

We want to hear about different ideas for marking gear in the sablefish pot gear fishery from the fishermen who use this gear day in and day out. We will also discuss ways to reduce the risk of whale entanglement in this fishery.

Workshop Goals

Develop a list of potential gear marking options that are:

- Feasible for fishing operations to use
- Are not a major economic burden
- Make pot gear easier to identify

Register at:
beav.es/ihe
