

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL (HMSAS) REPORT ON
CHUMASH HERITAGE NATIONAL MARINE SANCTUARY DESIGNATION

During our October 24, 2022 webinar, the HMSAS received a presentation from Mr. Kerry Griffin on the possibility of the Council recommending any fishery management regulations for the proposed Chumash Heritage National Marine Sanctuary. **We recommend the Council not propose any additional fishery management regulations at this time given the myriad of regulations that already conserve marine resources within the proposed Sanctuary boundaries.**
