

# H.5 Stock Definitions

## Council Action:

Adopt a range of alternative stock definitions for priority species.

WDFW Motion Agenda Item H.5

I move that the Council adopt the range of alternatives in Table 2 of Attachment 1 with the additions of the new alternative recommended by the SSC in Supplement Report 1 for vermilion/sunset rockfish and adding squarespot rockfish to Alternative 1 (all references refer to the reports presented under this agenda item). Alternative 1 includes the ability to apply harvest control rules where separate assessments are used to assess subareas of the coast.

Moved by Corey Niles

Seconded by Phil Anderson

Motion passes unanimously
