

FURTHER DIRECTION FOR 2023 MANAGEMENT ALTERNATIVES

If necessary, the Salmon Technical Team (STT) will request clarification or direction regarding the management elements identified thus far by the Pacific Fishery Management Council (Council). The Council may need to provide clarification to STT on any questions that may arise, and may need to provide direction to the STT for changes to the management alternatives presented under this agenda item. The STT will conduct a full analysis and provide the Council with the results.

Additional direction from the Council may be necessary as the management alternatives are developed. The STT will provide adjusted management alternatives based on Council guidance as this meeting progresses. It is anticipated that the Council will adopt for public review coastwide management alternatives prior to the conclusion of the 2023 March Council meeting.

Council Action:

- 1. Provide clarification to the STT on any questions as needed.**
- 2. Provide additional direction on management alternative development and STT analysis, as needed.**
