

SALMON ADVISORY SUBPANEL REPORT ON
INCIDENTAL CATCH RECOMMENDATIONS: OPTIONS FOR SALMON TROLL AND
FINAL RECOMMENDATIONS FOR FIXED GEAR SABLEFISH FISHERIES

The Salmon Advisory Subpanel (SAS) recommends the following options for public review:

All alternatives are for the time period of May 16, 2023, through the end of the 2023 salmon troll fishery, and beginning April 1, 2024, until modified through inseason action or superseded by the 2024 management measures.

- Alternative 1: (status quo) license holders may land no more than one Pacific halibut per each two Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 35 halibut landed per trip. (1+1 per each 2, 35)
- Alternative 2: license holders may land no more than one Pacific halibut per each two Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 30 halibut landed per trip. (1+1 per each 2, 30)
- Alternative 3: license holders may land no more than one Pacific halibut per each two Chinook, except one Pacific halibut may be landed without meeting the ratio requirement, and no more than 25 halibut landed per trip. (1+1 per each 2, 25)

Incidental Pacific halibut catch regulations in the commercial salmon troll fishery may be modified by inseason action.

The SAS recommends that the current incidental Pacific halibut catch regulations remain for the period April 1 - May 15, 2023. The current limit is no more than one halibut per each two Chinook, except one halibut may be possessed or landed without meeting the ratio requirement and no more than 35 halibut may be landed per trip.
