

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL REPORT  
ON REPORT OF THE OFFICE OF NATIONAL MARINE SANCTUARIES

The Highly Migratory Species Advisory Subpanel (HMSAS) received a presentation from Laura Ingulsrud, National Marine Sanctuaries, on the [Office of National Marine Sanctuaries Coordination Report](#). We understand there are numerous efforts which will lead to a new sanctuary and updated management plans for existing sanctuaries. We remain concerned about the possibility of fishing regulations or ancillary regulations that may affect fishing or fishery operations. We appreciate the Council's engagement with the Office of National Marine Sanctuaries in ensuring such regulations are informed by the Council process.
