

COASTAL PELAGIC SPECIES ADVISORY SUBPANEL ON MEMBERSHIP
APPOINTMENTS AND COUNCIL OPERATING PROCEDURES

The Coastal Pelagic Species Advisory Subpanel (CPSAS) strongly supports the revisions to the Council Operating Procedure 1 and Statement of Organization, Practices, and Procedures to prevent harassment of participants in the Council process as described in Attachments 5, 6, and 7 and recommends the Council adopt the revisions for public review. Effective policies on harassment are important to providing a productive environment for Council business.

The CPSAS supports uniform rules for all bodies so long as the chair of each body has the authority to manage the meeting as needed to ensure that the body can conduct its business in an efficient and inclusive manner.
