a/ Reported in net weight. Net weight is defined in IPHC regulations as the weight of halibut that is without gills and entrails, head-off, washed, and without ice and slime. If a halibut is weighed with the head on or with ice and slime, the required conversion factors for calculating net weight are a 2 percent deduction for ice and slime and a 10 percent deduction for the head.

b/ Excludes the Columbia River allocation and commercial incidental sablefish allocation.

c/ Excludes the Columbia River allocation.
