

2021/ 2022 Final Report for the Emley Platt EFP
2023/2024 Interim Report

Only 2 of our 7 boats with permits participated in the EFP during this period.

The two boats were the Smeagol out of San Francisco and the MJ out of Fort Bragg.

Shawn Cross on the Smeagol made a total of 6 trips, two in 2021 and 4 in 2022. He landed a total of 16054 lbs. Mostly Yellow tail rockfish. All his trips were observed.

James Wells on the MJ made a total of 25 trips for a total of 7500lbs. (note that the MJ numbers are currently estimates) I do not have all the landing receipts for the MJ.

As you know 2021 was a crazy year for all of us. I know that the MJ was not observed on some of his 2021 trips and did self reporting.

On another note, as of now none of our 2023 boats have not yet participated in the EFP.
