

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL REPORT
ON FUTURE WORKLOAD PLANNING

The Highly Migratory Species Advisory Subpanel (HMSAS) reviewed the Draft Proposed Pacific Fishery Management Council (Council) Meeting Agenda for November and the Council Workload Planning: Preliminary Year-at-a-Glance Summary. During your March 2023 meeting, the HMSAS did not attend in person. Given the number of important International Management activities which are slated to be discussed next year and preparations for any HMS Roadmap workshop to be held in conjunction with the June 2024 Council meeting, we recommend that the HMSAS and Management Team meet in person during your March 2024 meeting.
