

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL REPORT
ON EXEMPTED FISHING PERMITS - FINAL

The Highly Migratory Species Advisory Subpanel (HMSAS) reviewed and discussed the letter from Mr. Donald Krebs ([I.3, Attachment 1](#)), which clarified he is requesting his own exempted fishing permit to utilize deep-set buoy gear at night with the use of satellite-based electronic monitoring buoys. The HMSAS recommends the Pacific Fishery Management Council approve this application.
