

HIGHLY MIGRATORY SPECIES ADVISORY SUBPANEL REPORT  
ON MARINE PLANNING

The Highly Migratory Species Advisory Subpanel (HMSAS) reviewed and discussed the draft comment letter on Draft Oregon Wind Energy Areas ([C.3, Supplemental Attachment 3](#)). The HMSAS focused its review on the Highly Migratory Species portion of the letter. The HMSAS appreciates the letter highlighting the lack of recreational HMS fishing information included in the combined National Marine Fisheries Service/Oregon Department of Fish and Wildlife fishery dataset informing the spatial suitability model. The HMSAS recommends the Council submit the comment letter to BOEM.
