

PACIFIC FISHERY MANAGEMENT COUNCIL MARINE PLANNING

March 8, 2024

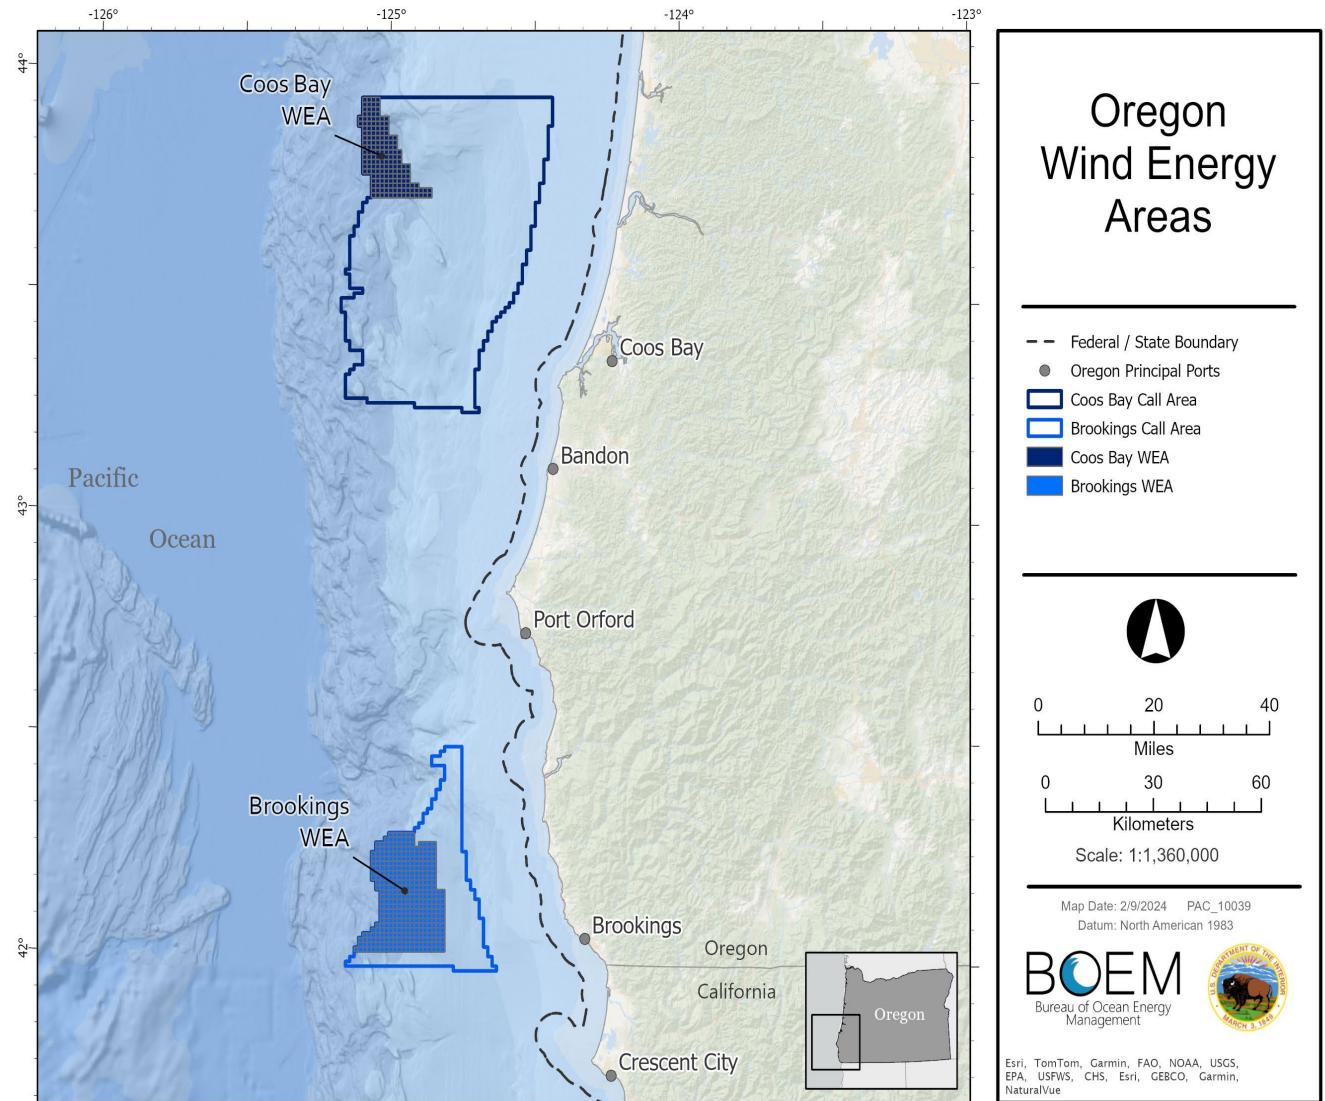

California

- AB 525 Draft Strategic Plan
 - Chapter 5 - Identification of suitable sea space
 - Chapter 4 - Potential Impacts of OSW and Avoidance, Minimization, Mitigation Strategies
 - Chapter 8 - Transmission Technology and Alternatives Assessment (to shore)
 - Chapter 6 - Port and Waterfront Infrastructure
- Site Surveys

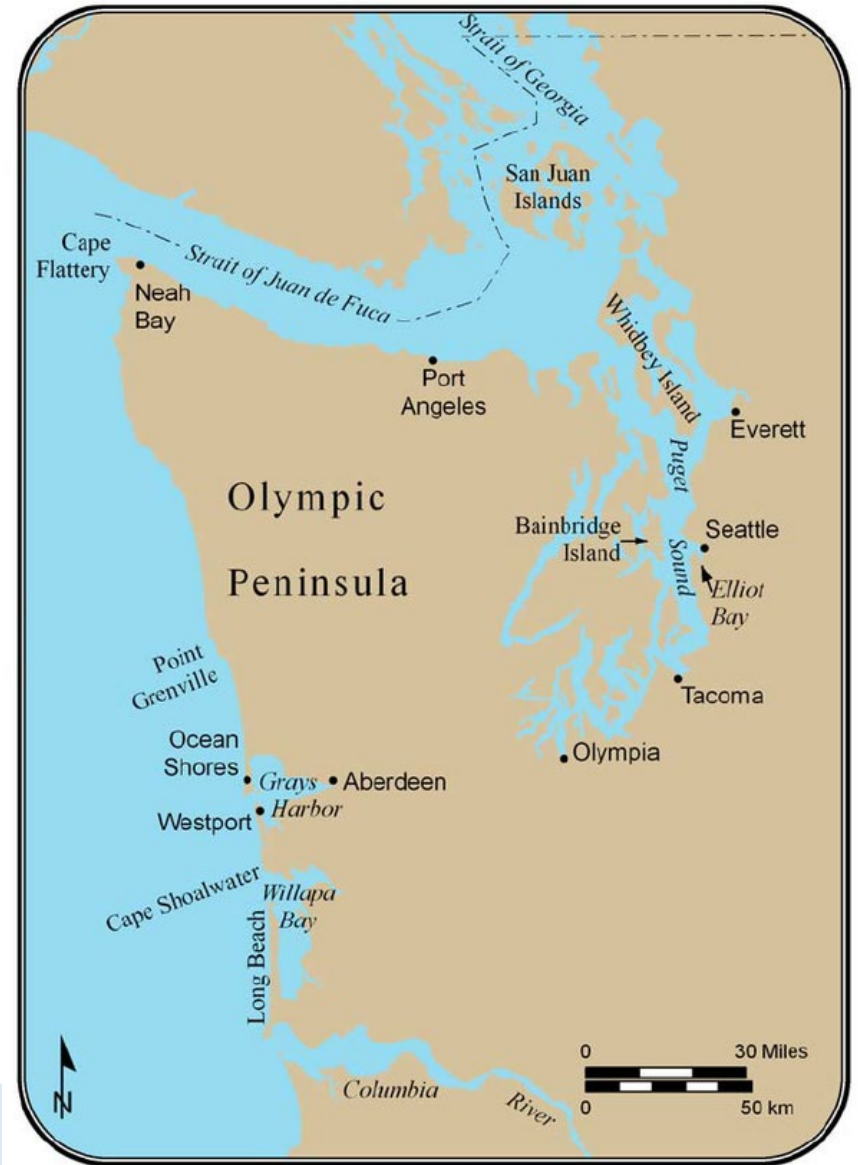

Oregon

- Final WEAs (Feb 13th)
- NOI re EA (Feb 14th)
- HB 4080

Washington

- WCMAC meetings
- Governor's Office contracted with Gridworks:
 - evaluate OSW in WA
 - engage with tribes and stakeholders

Long Term Coastwide Cumulative Impacts: A Vision Quest

- Purpose
- Benefit to Council
- Development scenarios
- Parallel processes & partners?
- Next steps?

	hydrological processes and upwelling; mixing, eddies, wind wakes?		
Natural Resources	What are the impacts of EMF to different species?	Siting, Operations	Cross FMP
Natural Resources	What are the impacts to migratory species?	Siting, Operations	Cross FMP
Ecosystem/Fisheries	Will energy extraction from OSW development exacerbate deepwater hypoxia?	Siting, Operations-	Groundfish, HMS, FEP-
Ecosystem and Fisheries	How will OSW development impact larval transport?	Siting, Operations	Cross FMP-
Natural Resources	How does vibration and noise generated by site assessment/characterization, construction, operation and decommissioning subterranean drilling impact marine species?	All	Cross FMP-
Fisheries	To what extent will OSW development displace fisheries?		
Fisheries	What are the space use conflicts between OSW development and fisheries?		
	<ul style="list-style-type: none"> • Within WEAs 	All	HMS, Groundfish
	<ul style="list-style-type: none"> • Outside of WEAs (cable routes, substations (if fixed and closer to shore), etc 	All	Cross FMP
Fisheries & Ecosystem	What are the potential impacts to fisheries management from OSW development displacing long-term monitoring efforts?		
	How resilient are ports to OSW development (i.e. if fisheries are displaced/lose access to fishing grounds how does that impact the coastal ports that depend on those fisheries)?		

MPC Vision Quest and Cumulative Impacts

MPC Year at a Glance

* At best a guess and subject to change – last updated 1/23/24

Q4 2023	Q1 2024	Q2 2024	Q3 2024	Q4 2024
AB 525 Draft Strategic Plan	Oregon NOI EA	DPEIS AOAs	Oregon FSN ²	Oregon Auction
SAPs ¹	IHAs	Oregon Draft EA	Draft PEIS Ca Leases	
NOI – DPEIS Ca Leases	CADEMO Notice	Oregon PSN	CADEMO NOP/NOI EIR/EIS	
HAs	WA – Pre-planning OSW (ongoing thru Q2)	California Call Areas	Draft PEIS for AOAs	
NOI – EIS Pier Wind Terminal Development Project at the Port of Long Beach (12/19)	California Pre-Call Planning	Humboldt EIR		
	AB 525 Draft Strategic Plan (released 1/19)	Feasibility Study – SB 605 (Ca)		
CCC 7(c) working group				

MPC Requests guidance on

- Draft comment letter (BOEM's) Notice of Intent to Prepare an Environmental Assessment for offshore wind (OSW) energy leasing offshore Oregon, related to the issuance of Final Wind Energy Areas (WEAs).
- Potential comment letter on the California Energy Commission's (CEC) Assembly Bill 525 (AB 525) Draft Strategic Plan for Offshore Wind Development.
- Guidance on a potential coastwide, long term, cumulative effects analysis for the future of offshore wind on the Pacific Coast.
