

**2025-26 FISHERIES ANALYSIS
UPDATE AND ADOPT CALIFORNIA
QUILLBACK ROCKFISH HARVEST
SPECIFICATIONS AND REBUILDING
PARAMETER**

Agenda Item F.7

March 10, 2023

Discussion

Organization of
Analysis

Guidance

Corrections

Organization of the Alternatives

Past Council Analyses:

- Baseline – Used for comparison
- No Action – Default Harvest Control Rules (HCR)
- Action Alternatives – Alternative HCR(s)

Organization of the Alternatives

2025-26 Council Analytical Document

- No Action – 2023 mortality, 2023-24 management measures
- Alternative 1– Default HCRs
- Alternative 2 & 3 – Alternative HCRs

Guidance and Clarity

Canary Rockfish Alternative HCR

“I move the Council adopt default HCRs for all species in the [FMP] except for the three species listed below....: •

- Rex sole: Alt 1, $ACL = ABC P * 0.45$
- Shortspine thornyhead: $ACL < ABC P * 0.45$, 40-10 adjustment applied
- Dover sole: Alt 1: $ACL = ABC P * 0.45$ ”

E.5 ODFW Motion 1

Guidance and Clarity

California Copper Rockfish ACT

“Copper Rockfish – Evaluate removing statewide California copper rockfish ACT and establish an ACT south of Pt. Conception for the California stock.”

E.7 CDFW Motion 3

Motion and Council discussion not clear on if the ACT is recreational, commercial, or both

ACL Corrections

Two ACL Corrections¹

Lingcod south of 40° 10' N. lat.

- Correction: 40-10 Rule is applied to 2025-26
- Reduces ACLs by 20 mt and 22 mt

Petrale Sole

- Correction: 25-5 Rule is applied to 2026
- Reduces ACL by 17 mt

[1. Agenda Item E.5, Supplemental Revised Attachment 1, November 2023](#)

New Management Measure Addition

Groundfish FMP and Federal Regulation not consistent

Add new management measure to correct:

- **Pacific sand lance scientific name change**
- **Pacific spiny dogfish common name change**
