Tentative Adoption of 2024 Management Measures for Analysis

For tribal ocean fisheries in the area North of Cape Falcon, I move for the following tentative option to be analyzed by the Salmon Technical Team:

Chinook quota of: 42,500

Coho quota of: 42,500

This option consists of a May/June Chinook directed fishery and a July/August/September all-species fishery. The Chinook quota will be split 50/50 between the May/June and the July/August/September time periods.

Moved by Joe Oatman

Seconded by Kyle Adicks
