

COASTAL PELAGIC SPECIES ADVISORY SUBPANEL REPORT ON
MEMBERSHIP APPOINTMENTS AND COUNCIL OPERATING PROCEDURES – 2025-27
ADVISORY BODY COMPOSITION AND RESPECTFUL WORKPLACE POLICIES

The Coastal Pelagic Species Advisory Subpanel (CPSAS) believes that the current composition of the subpanel is fair and representative of the different interests in the CPS fisheries. We ask the Council to retain the current area/sector seat designations in its operating procedures, but to continue to be receptive to input from the CPSAS concerning CPSAS composition when fisheries are not operating to ensure effective participation in the subpanel. We benefited from this practice when the Council accepted general commercial nominees to fill the open Washington commercial seat.
