

HABITAT COMMITTEE REPORT ON MEMBERSHIP APPOINTMENTS AND COUNCIL
OPERATING PROCEDURES, 2025-27 ADVISORY BODY COMPOSITION AND
RESPECTFUL WORKPLACE POLICIES

The Habitat Committee (HC) discussed Pacific Fishery Management Council efficiencies and the makeup of the Habitat Committee. The broad range of freshwater and marine habitat issues cuts across multiple fishery management plans and regions. This requires expertise and representation that can span those needs. Overall, the HC believes the current scope of member affiliations, backgrounds, and expertise addresses these needs.
