## 2024 Pacific Halibut Catch Sharing Plan for Area 2A

- Previous year's catch estimates.
- Tribal allocation minus the Ceremonial and Subsistence estimate. Note that the IPHC Annual Report (available at <https://www.iphc.int/uploads/2024/01/IPHC-2024-AM100-R-Report-of-the-AM100.pdf>) lists the Tribal C&S as 20,220 lbs and Tribal Commercial at 494,280 lbs. There was a slight adjustment made after regulations were adopted, which is reflected in the figure.
- Incidental halibut in the sablefish fishery: The primary sablefish fishery N. of Pt. Chehalis will be allocated the WA sport allocation that is in excess of 214,110 pounds (lbs) up to 50,000 lbs provided a min. of 10,000 lbs is available. If the 2A TAC is 1.5 million lbs or more, the maximum allocation will increase to 70,000 lbs. If the amount above 214,110 lbs is <10,000 lbs or greater than 50,000 lbs (or 70,000 lbs), the excess will be allocated back to the WA sport areas.
- WA-Puget Sound:** 23.5% of the first 130,845 lbs allocated to WA sport plus, 32% of the WA sport allocation between 130,845 and 224,110 lbs.
- WA-North Coast:** 62.2% of the first 130,845 lbs allocated to WA sport plus, 32% of the WA sport allocation between 130,845 and 224,110 lbs.
- WA-South Coast:** 12.3% of the first 130,845 lbs allocated to WA sport plus, 32% of the WA sport allocation between 130,845 and 224,110 lbs.
- WA-Columbia River:** 2% of the first 130,845 lbs allocated to WA sport plus, 4% of the WA sport allocation between 130,845 and 224,110 lbs. plus anything over 8,000 lbs from the Southern Oregon Subarea.
- Open after the primary (all-depth) fishery closes if sufficient quota remains.
- 500 lbs is reserved for a nearshore fishery, the remainder to the all-depth fishery.
- Southern Oregon Subarea:** 3.91% of the Oregon sport allocation up to 8,000 lbs. Any poundage over 8,000 lbs gets transferred to the Columbia River Subarea.
- California Subareas:** 500 lbs is reserved for the South of Pt Arena Subarea, the remainder to the Northern California Subarea.
