

Congressional Activities Report
118th Congress
September 2024
Submitted to the Caribbean Fishery Management Council

Appropriations Update – Fiscal Year 2025

On September 26, 2024, the President signed Public Law 118-83, the “Continuing Appropriations and Extensions Act, 2025”. This Continuing Resolution will fund federal agencies through December 20, 2024.

The House of Representatives had announced that the goal for FY 2025 was to have passed all 12 appropriation bills out of the House before the beginning of September; however, the House of Representatives is currently in recess until September 9th. Funding for Fiscal Year 2024 expires on September 30, 2024.

As of September 30, 2024:

- All 12 appropriation bills have been reported out of House Appropriations Committee;
- The House of Representatives has passed 5 of the 12 appropriation bills (according to press reports, these 5 bills represent 75% of Federal government funding);
- The Senate Appropriations Committee has passed 11 of 12 appropriation bills out of committee;
- The Senate has passed 0 of 12 appropriation bills;
- The Commerce, Justice, Science bill has been reported out of both the House and Senate appropriations committees, but the bills have not gone to the Floor yet.

October 24, 2023, the Congressional-Executive Commission on China held a hearing titled “From Bait to Plate—How Forced Labor in China Taints America's Seafood Supply Chain”.

According to the Commission’s website,

“Forced labor in China taints the world’s seafood supply chain. PRC-based companies that use the forced labor of Uyghurs and North Koreans process a large amount of seafood for the U.S. market. From fish sticks to calamari—these products end up in the supply chains of major restaurants and wholesalers and in the lunches served at American schools and military bases. Recently published reports by The Outlaw Ocean Project detail how forced labor is rampant in China’s seafood industry, including modern slavery on China’s illegal, unreported, and unregulated (IUU) fishing fleet, and in processing plants located in Shandong province of China—where Uyghurs are employed in labor transfer projects. There is also emerging evidence that North Koreans are also working in the fish processing industry in Liaoning province. Squid, pollack, baby clams, and crab are just some of the imports that make it onto the plates of American consumers.

“U.S. imports of seafood caught or processed with forced labor may be prohibited under the Uyghur Forced Labor Prevention Act (Public Law 117-78), the Countering America’s Adversaries Through Sanctions Act (Public Law 115-44), and other laws. Nevertheless, the U.S. Government, major grocery chains, and restaurants continue to purchase seafood caught and processed using forced labor in China.

“This hearing will continue the CECC’s efforts to ensure that PRC goods and products made with forced labor do not enter U.S. markets. Witnesses will provide testimony about the human rights abuses on board China’s IUU fishing fleet, the seafood supply chains tainted by forced labor in China, and the exposure of the U.S. Government and American consumers to these supply chains. Witnesses will also provide recommendations for U.S. action.”
