

Recreational Fisheries Roundtable

Friday, November 15, 2024

Balboa Bay
Hilton Orange County/Costa Mesa
3050 Bristol Street
Costa Mesa, CA 92626

NOAA Fisheries is hosting a forum for recreational fishing community members to come together and discuss areas of interest. NOAA Fisheries will be particularly focused on receiving input on current recreational fishing data collection approaches, data priorities and gaps, and the partnership structure to inform and transition to a new collaboratively developed vision for the state-federal partnership that better meets regionally specific needs.

5:30-5:45pm **Welcome and Introductions**

5:45-6:00pm **NOAA Fisheries' Marine Recreational Information Program state-federal partnership re-envisioning presentation**

Overview of MRIP's role on the West Coast, current state data collection programs/partnerships, and the re-envisioning process, goals, and objectives

6:00-7:45pm **Roundtable Discussion**

Around the room discussion of recreational fisheries topics of interest, including the re-envisioning process related to improving data collection and use, angler/fisheries behavior and other factors that could impact rec data survey performance, etc.

7:45-8:00pm **Wrap up and next steps**

Questions? Please contact Daniel Studt at (562) 980-4073 or daniel.studt@noaa.gov.

Re-envisioning the Recreational Data Collection Partnership

A joint initiative is underway to transition to an improved state-federal recreational fisheries data collection partnership that better meets regional needs.

Working Goal

A state-federal data collection system for marine and estuarine recreational fisheries that is regionally specific and nationally coherent and leverages partner expertise and resources to obtain the best quality data possible from available sources to inform sustainable, adaptive fisheries management.

Working Objectives

- Clear roles, responsibilities, and lines of transparent communication among partners

- Enhanced recreational data precision, accuracy, and timeliness
- Adherence to data collection standards

- Transparent, consistent, and centralized data warehousing and access
- Survey, estimation, and review improvement frameworks that promote data integrity and accountability
- Data stream connectivity among different surveys and effective integration
- Enhanced partner/angler collaboration and participation

Timeline

2024 (Information-Gathering)

- **Spring** - Held 4 virtual briefings with approximately 150 partners and members of the recreational fishing community across the nation to introduce the effort and garner initial feedback on the re-envisioning process and objectives
- **Summer/Fall** - Hold information-gathering sessions with key internal colleagues and regional and state partners; public listening sessions during regional Council and other relevant meetings
- Summarize results to inform workshop development

2025 (Workshops and Planning)

- **Early 2025** - Establish new interagency working groups and/or leverage and restructure existing recreational data partnership teams
- **Summer** - Hold workshops to inform new vision and associated action plan
- **Fall/Winter** - Draft a vision/structure for renewed partnership and circulate for public feedback

2026 (Implementation)

- **Early 2026** - Announce and transition to renewed partnership
