

SALMON ADVISORY SUBPANEL REPORT ON KLAMATH RIVER FALL CHINOOK  
WORKGROUP PROGRESS REPORT AND RECOMMENDATIONS

The Salmon Advisory Subpanel (SAS) discussed the Klamath River Fall Chinook Workgroup (KRWG) progress report. The SAS supports the use of item 1, Current Harvest Control Rule with a Range of Buffers, for planning 2025 ocean salmon fisheries. For the remaining options, the SAS supports further development, but a portion of the SAS has initial hesitation regarding item 2, the Sub-Basin Management Approach.
