

2025 2A Fishery Allocation Calculations

^a CEY = Constant Exploitable Yield (O26)

^b Projected values from <https://www.iphc.int/uploads/2025/01/IPHC-2025-AM101-R-Report-of-the-AM101-1.pdf> page 25

2025 Pacific Halibut Catch Sharing Plan for Area 2A

- Previous year's catch estimates.
- Tribal allocation minus the Ceremonial and Subsistence estimate.
- Incidental halibut in the sablefish fishery: The primary sablefish fishery N. of Pt. Chehalis will be allocated the WA sport allocation that is in excess of 214,110 pounds (lbs) up to 50,000 lbs provided a min. of 10,000 lbs is available. If the 2A FCEY is 1.5 million lbs or more, the maximum allocation will increase to 70,000 lbs. If the amount above 214,110 lbs is <10,000 lbs or greater than 50,000 lbs (or 70,000 lbs), the excess will be allocated back to the WA sport areas.
- WA-Puget Sound:** 23.5% of the first 130,845 lbs allocated to WA sport, plus 32% of the WA sport allocation between 130,845 and 224,110 lbs.
- WA-North Coast:** 62.2% of the first 130,845 lbs allocated to WA sport, plus 32% of the WA sport allocation between 130,845 and 224,110 lbs.
- WA-South Coast:** 12.3% of the first 130,845 lbs allocated to WA sport, plus 32% of the WA sport allocation between 130,845 and 224,110 lbs.
- Columbia River:** 2% of the first 130,845 lbs allocated to WA sport, 4% of the WA sport allocation between 130,845 and 224,110 lbs., 2.3% of OR sport allocation, plus anything over 8,000 lbs from the Southern Oregon subarea.
- Open after the primary (all-depth) fishery closes if sufficient quota remains.
- 500 lbs is reserved for a nearshore fishery, the remainder to the all-depth fishery.
- Oregon Central Coast:** (1) If the 2A FCEY is 1.2M lbs or greater; the nearshore is allocated 10,000 lbs and the spring all-depth season is allocated 75% of the Oregon Central Coast subarea quota. (2) If the FCEY is 700,000 lbs or greater (and less than 1.2M); the nearshore is allocated 12% and the spring all-depth season is allocated 63% of the Oregon Central Coast subarea quota. (3) If the FCEY is less than 700,000 lbs; the nearshore is allocated 25% and the spring all-depth season is allocated 75 percent of the Oregon Central Coast subarea quota. The summer all-depth season is allocated the remaining subarea quota in all three scenarios.
- Southern Oregon:** 3.91% of the Oregon sport allocation up to 8,000 lbs. Any poundage over 8,000 lbs gets transferred to the Columbia River Subarea.
- California subareas:** 500 lbs is reserved for the South of Pt. Arena subarea, the remainder to the Northern California subarea.
