

PROPOSED AGENDA

Scientific and Statistical Committee Groundfish Subcommittee Supplemental Stock Assessment Review

Pacific Fishery Management Council
Via Webinar

October 14 & 16, 2025

This Supplemental Stock Assessment Review is hosted by the Pacific Fishery Management Council (Council) and will follow the Council's [Terms of Reference \(TOR\) for the Groundfish Stock Assessment Review Process for 2025-2026](#). This meeting will review the 2025 update stock assessment for widow rockfish.

Scientific and Statistical Committee (SSC) Groundfish Subcommittee (GFSC) meetings are open to the public and public comment periods are scheduled each day. Time restrictions may be implemented in order to maximize the total number of public comments that can be made during each allotted time period. Meeting participants are also encouraged to convey relevant comments and questions to Jeff Lackey, the [Groundfish Advisory Subpanel](#) (GAP) representative, and/or Whitney Roberts, the [Groundfish Management Team](#) (GMT) representative. The GAP and GMT representatives serve as advisors and actively participate in all portions of the meeting.

This meeting will be conducted as an online webinar. Meeting facilitators will attempt to resolve any technical issues that arise but cannot guarantee specific outcomes. Meeting information, materials, and instructions for how to connect remotely will be available on the [Council's website](#) in advance of the meeting.

This agenda is subject to change at the discretion of the SSC GFSC Vice-Chair.

Tuesday, October 14, 2025
