2026 Pacific Halibut Catch Sharing Plan for Area 2A

- Previous year's catch estimates.
- Tribal allocation minus the Ceremonial and Subsistence (C & S) estimate.
- Incidental halibut in the sablefish fishery: The primary sablefish fishery N. of Pt. Chehalis will be allocated the WA sport allocation that is in excess of 214,110 lbs up to 50,000 lbs provided a min. of 10,000 lbs is available. If the 2A FCEY is 1.5 million lbs or more, the maximum allocation will increase to 70,000 lbs. If the amount above 214,110 lbs is <10,000 lbs or greater than 50,000 lbs (or 70,000 lbs), the excess will be allocated back to the WA sport areas.
- WA-Puget Sound:** 23.5% of the first 130,845 lbs allocated to WA sport, plus 32% of the WA sport allocation above 130,845.
- WA-North Coast:** 62.2% of the first 130,845 lbs allocated to WA sport, plus 32% of the WA sport allocation above 130,845.
- WA-South Coast:** 12.3% of the first 130,845 lbs allocated to WA sport, plus 32% of the WA sport allocation above 130,845.
- Open after the primary (all-depth) fishery closes if sufficient quota remains.
- Columbia River:** 2% of the first 130,845 lbs allocated to WA sport, plus 4% of the WA sport allocation above 130,845 lbs plus anything over 8,000 lbs from the Southern Oregon subarea.
- Oregon Central Coast:** (1) If the 2A FCEY is 700,000 lbs or greater, the nearshore is allocated 10,000 lbs, the spring all-depth season is allocated 75% of the Oregon Central Coast subarea quota, and the summer all-depth season is allocated the remaining subarea quota. (2) If the FCEY is less than 700,000 lbs, the nearshore is allocated 25% and the spring all-depth season is allocated 75% of the Oregon Central Coast subarea quota.
- Southern Oregon:** 3.91% of the Oregon sport allocation up to 8,000 lbs. Any poundage over 8,000 lbs gets transferred to the Columbia River Subarea.
- California subareas:** 500 lbs is reserved for the South of Pt Arena subarea, the remainder to the Northern California subarea.
