

INTERNATIONAL MANAGEMENT ACTIVITIES

As reported at the June Council meeting ([Agenda Item G.2.a, NMFS Report 1](#)), a number of meetings held over the summer have implications for West Coast highly migratory species management. These meetings included the Joint Working Group on Pacific Bluefin Tuna, the 21st Regular Session of the Northern Committee, and the U.S. meetings for the Scientific Advisory Committee and General Advisory Committee to the Inter-American Tropical Tuna Commission (IATTC). The National Marine Fisheries Service Report (D.2.a, NMFS Report 1) provides summaries and key outcomes of these meetings.

In addition, NMFS Report 1 describes key issues to be considered at the September 1 – 5, 2025 IATTC in Panama City, Panama, and lists upcoming WCPFC meetings.
