CANCELLED

The Groundfish Subcommittee (GFSC) of the Scientific and Statistical Committee (SSC) is conducting a meeting which is open to the public and a dedicated public comment period has been scheduled. Additional public comments may be taken at the discretion of the Chair. Pertinent information will be posted to the Council's June 2025 meeting webpage prior to the meeting. This meeting is being conducted in person with a web broadcast that provides the opportunity for remote public comment.

Times on this agenda are subject to change once the meeting begins. Agenda items listed under SSC GFSC Administrative Matters are in numerical order; other agenda items reflect their Council Meeting Agenda numbering.

Committee member work assignments are noted in parentheses at the end of each agenda item. The first name listed is the discussion leader and the second, the rapporteur.

The SSC GFSC will review two update stock assessments and prepare their recommendations for the SSC and Pacific Council consideration at their June 2025 meetings. Assessment recommendations may include endorsing these new stock assessments for management use or requesting further analyses to be reviewed at the late September review panel (as outlined in the Terms of Reference for the Groundfish Stock Assessment Review Process for 2025-2026). Recommendations from the SSC GFSC are not considered final until reviewed by the full SSC.
