SALMON ADVISORY SUBPANEL REPORT ON 2027 COMMERCIAL AND RECREATIONAL CATCH SHARING PLAN AND ANNUAL REGULATIONS - FINAL

For the 2027 directed commercial halibut season structure, the Salmon Advisory Subpanel (SAS) maintains their recommendation of a *status* quo season (see September 2026, Agenda Item F.1.a, Supplemental SAS Report 1).

For the sport season structure, the SAS recommends the seasons proposed in the Washington and Oregon Department of Fish and Wildlife (WDFW and ODFW) reports be adopted for 2027, except for the Columbia River subarea. For the Columbia River subarea, the SAS recommends the season structure as described in the WDFW report.
